

Bonus Option Issue Prospectus

Doriemus plc (“**Doriemus**” or the “**Company**”) is pleased to confirm that further to its recent announcements, a pro-rata non-renounceable bonus issue of options to eligible holders of the Company (**Bonus Option Issue**) will be undertaken on the basis of two (2) free options for every three (3) ordinary shares or CHESS Depository Interests (**CDIs**) held in the capital of Doriemus. The purpose of the Bonus Option Issue is to reward certain existing shareholders for their loyalty and support of the Company.

In relation to the Bonus Option Issue, the Company has lodged a prospectus for Bonus Option Issue with the Australian Securities and Investments Commission (**ASIC**) and the Australian Securities Exchange (**ASX**).

Each bonus option will be issued to Eligible Holders (as defined below) for nil consideration and will be exercisable for one fully paid CDI, at 8 cents each on or before any time up to the date that is 4 years from the date of their issue (**Bonus Options**). An Application will shortly be made for the Bonus Options to be quoted on the ASX as a new quoted class of security.

Eligible holders of CDIs or shares in the Company with a registered address in Australia or New Zealand on the record date of 17 March 2020 (**Record Date**) will automatically be issued bonus options based on their CDI or share holding as at the Record Date (**Eligible Holders**).

Holding statements for the Bonus Options will be despatched to Eligible Holders on or soon after the issue of the Bonus Options.

A copy of the prospectus for the Bonus Option Issue is available at www.doriemus.co.uk and at www.asx.com.au and sets out full details in relation to the Bonus Option Issue and the terms and conditions of the Bonus Options. Hard copies of the prospectus are also available by contacting the Company Secretary, Jessamyn Lyons, between 9:00am and 5:00pm (AWST) Monday to Friday on +61 8 6245 2050 and jess@everestcorp.com.au.

A letter detailing an Eligible Holders entitlement to be issued Bonus Options under the Bonus Option Offer will be mailed to such Eligible Holders on or after the Record Date.

The Bonus Option Issue is conditional upon completion of the proposed transaction with Oilex Limited as further detailed in the Company’s recent announcements and the Prospectus. If the proposed transaction is not completed, no Bonus Options will be issued.

FORWARD LOOKING STATEMENTS AND IMPORTANT NOTICE:

This announcement may contain forecasts, projections and forward-looking information. Although the Company believes that its expectations, estimates and forecast outcomes are based on reasonable assumptions it can give no assurance that these will be achieved. Expectations, estimates, projections and information provided by the Company are not a guarantee of future performance and involve unknown risks and uncertainties, many of which are out of the Company's control. In respect to current and future operations, Doriemus is reliant on the information provided by the operators of those assets and does not control the day to day operations of these projects and is not always able to independently verify the information provided by such operators. Actual results and developments may differ materially from those expressed or implied. It is believed that the expectations reflected in these statements are reasonable, but they may be affected by many variables which could cause actual results or trends to differ materially. There are risks involved in Doriemus' projects. To the maximum extent permitted by applicable laws, the Company makes no representation and can give no assurance, guarantee or warranty, express or implied, as to, and takes no responsibility and assumes no liability for (1) the authenticity, validity, accuracy, suitability or completeness of, or any errors in or omission from, any information, statement or opinion contained in this announcement and (2) without prejudice to the generality of the foregoing, the achievement or accuracy of any forecasts, projections or other forward looking information contained or referred to in this announcement.

Investors should make and rely upon their own enquiries before deciding to acquire or deal in the Company's securities.

PROSPECTUS

BONUS OPTION ISSUE

DORIEMUS PLC
ARBN 619 213 437

Bonus Option Issue to Eligible Holders

For a pro-rata non-renounceable offer to Eligible Holders to be issued two (2) Options for every three (3) CDIs or Shares held by Eligible Holders on the Record Date.

No money will be raised as a result of the Bonus Option Issue.

IMPORTANT NOTICE

This document is important and should be read in its entirety. If after reading this Prospectus you have any questions about the Securities being offered for issue under this Prospectus or any other matter, you should consult your stockbroker, accountant or other professional adviser. The Bonus Options offered for issue by this Prospectus, and any CDIs issued upon the exercise of any Bonus Options, should be considered as speculative. This is a transaction-specific prospectus issued in accordance with section 713 of the Corporations Act 2001(Cth). **This prospectus will be lodged with ASIC. Neither ASIC nor the ASX (nor their officers) take any responsibility for the content of this Prospectus or the merits of the investment to which this Prospectus relates.**

Not for distribution in the United States of America or to U.S. Persons.

Neither the information in this Prospectus nor any other document relating to the Offer has been delivered for approval to the Financial Conduct Authority in the United Kingdom and no prospectus (within the meaning of section 85 of the Financial Services and Markets Act 2000, as amended) has been published or is intended to be published in respect of the Offer.

No Bonus Options may be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

Chairman's Letter

Dear Eligible Holders,

On behalf of the Board of Directors of Doriemus plc, it is my pleasure to present this Prospectus for the issue of Bonus Options to Eligible Holders for no monetary consideration.

Acquisition of Coera

You may have already seen our recent announcement dated 30 January 2020 regarding the signing of a conditional heads of agreement (**HOA**) for the proposed acquisition by the Company of 100% of the issued share capital of Coera Limited (**Coera**) from Oilex Limited (**Oilex**) (**Proposed Transaction**).

Upon completion of the Proposed Transaction, the Company, through its 100% interest in Coera, will own, or hold the rights to own, all of the Northern Fairway PRLs as well as an approximate 79.33% direct interest in PEL 112 and PEL 444, together with an option in Coera's favour to acquire the remaining interest in each of these PELs. Further details about these assets are contained in this Prospectus.

Should the Proposed Transaction be completed, the newly acquired assets will be the Company's main focus and the Company's initial actions in respect of the assets will be to:

- evaluate the 3D seismic data to identify additional undrilled prospects and leads;
- acquire reconnaissance data aimed at identifying surface anomalies related to hydrocarbons prior to detailed evaluation of the existing 3D seismic data sets;
- seek to drill two to three wells, including up to two wells targeting Jurassic oil and one well focused on northern wet gas; and
- commence a process that will be designed to identify a suitable joint venture partner to contribute funding and share the risk of any further work / drilling programmes on the asset portfolio.

The Company will also continue to assess and rationalize or wind up its existing assets located in the United Kingdom.

Bonus Option Issue

As first announced to the market on 30 January 2020, the Company would like to thank Eligible Holders for the support they have shown during the initial stages of the Company's development. There have been a number of positive steps taken as well as a few setbacks as is to be expected in the oil and gas exploration industry, and the issue of the Bonus Options is to reward Eligible Holders for the patience they have shown as the Company continues to develop.

The Bonus Options will be issued to all persons who hold CDIs or Shares on the Record Date and who are resident in Australia or New Zealand.

The Bonus Options will be issued for no monetary consideration, will have an exercise price of \$0.08 each and may be exercised at any time within approximately four years of their date of issue. The Company will also apply to have the Bonus Options listed on the ASX, subject to being able to meet ASX's listing requirements.

The Bonus Option Issue is being made in conjunction with the Proposed Transaction. Accordingly, the issue of the Bonus Options is conditional on completion of the Proposed Transaction as further detailed in the Company's recent announcements and in this Prospectus. If the Proposed Transaction is not completed, no Bonus Options will be issued. Also, if ASX

does not approve the quotation of the Bonus Options on the Official List of ASX within three months of the date of this Prospectus, the Bonus Options will not be issued or any that have been issued will be voided (unless ASIC grants an exemption).

Offers under the Prospectus

The offer of the Bonus Options for issue is made pursuant to this Prospectus. This Prospectus includes details of the Bonus Option Issue and the Company, together with a statement of the risks associated with owning securities in the Company. It also sets out details of the large number of other CDIs, options and Performance Rights that the Company is proposing to issue in connection with the Proposed Transaction, many of which are subject to Shareholder approval at the Company's upcoming General Meeting on 12 March 2020. If all of these Securities are issued it will have a significant dilutive impact on the current CDI holders of the Company and involve a material change to the Company's capital structure. I recommend that you study this Prospectus carefully and seek independent professional advice before making a decision to exercise or deal in any Bonus Options that are issued to you.

Yours sincerely,

A handwritten signature in black ink, appearing to be 'K. Coughlan', written in a cursive style.

Keith Coughlan
Non-Executive Chairman
Doriemus plc

1. Offers Statistics

Number of CDIs on issue prior to the Bonus Option Issue ^{1, 2}	57,983,125
Number of options on issue prior to the Bonus Option Issue ²	14,500,000
Number of CDIs to be issued pursuant to the Bonus Offer Issue	0
Maximum Number of Bonus Options to be issued pursuant to the Bonus Option Issue²	38,655,417
Number of CDIs to be issued pursuant to the Private Placement and Priority and Shortfall Offer ³	171,428,573
Number of options to be issued pursuant to the Private Placement and Priority and Shortfall Offer ⁴	57,142,858
Number of Vendor CDIs to be issued in connection with the Proposed Transaction	28,301,887
Number of Director Performance Rights to be issued in connection with the Proposed Transaction	18,000,000
Number of Lead Manager CDIs to be issued in connection with the Proposed Transaction	1,714,285
Number of Lead Manager Options and Director and Consultant Options to be issued in connection with the Proposed Transaction	25,000,000
Expected total number of CDIs on issue following completion of the Private Placement, Priority and Shortfall Offer, the Bonus Option Issue and the issue of the Vendor CDIs, Lead Manager CDIs, Lead Manager Options, Director and Consultant Options and Director Performance Rights^{1,2, 3, 5,6}	259,427,868
Expected total number of options and Performance Rights on issue following completion of the Private Placement, Priority and Shortfall Offer, Bonus Option Issue and the issue of the Vendor CDIs, Lead Manager CDIs, Lead Manager Options, Director and Consultant Options and Director Performance Rights^{2,4,5, 6}	135,298,274 options⁷ 18,000,000 Performance Rights

¹ Assumes all Shares are held as CDIs.

² Assumes that none of the options on issue as at the date of this Prospectus are exercised.

³ Assumes the maximum number of CDIs the subject of the Private Placement and Priority and Shortfall Offer are issued.

⁴ Assumes the maximum number of Attaching Options the subject of the Private Placement and Priority and Shortfall Offer are issued.

⁵ Assumes the Proposed Transaction is completed and all of the Securities set out in the above table are issued

⁶ Assumes that none of the options or Performance Rights that are issued in connection with the Proposed Transaction (as detailed in the table) are exercised.

⁷ Subject to satisfying ASX's requirements, it is proposed that a maximum of 105,798,274 of these options will be admitted to the Official List of the ASX in the same class of listed options. The remaining options will remain unlisted options.

2. Key Dates

Event	Date
Lodgement of Prospectus with ASIC and ASX and Lodgement of Appendix 3B with ASX	Thursday 5 March 2020
Date of the General Meeting	Thursday 12 March 2020
Ex Date (no deferred settlement trading)	Monday 16 March 2020
Record Date for Bonus Options	5.00pm AWST on Tuesday 17 March 2020
Mailing to Eligible Holders (Prospectus available online from Thursday 5 March 2020)	Tuesday 17 March 2024
Completion Date for the Proposed Transaction	Friday 20 March 2020
Intended date of issue of Bonus Options, lodgement of Appendix 2A with ASX and despatch date	Friday 20 March 2020
Trading in Bonus Options (as a new class of quoted securities) expected to commence	Monday 23 March 2020
Bonus Options expire	19 March 2024

*The above dates are indicative only and may change without notice. The Company also reserves the right not to proceed with the issue of the Bonus Options at any time.

The Directors, subject to the requirements of the Listing Rules and the Corporations Act, reserve the right to:

- (a) withdraw the Offer without prior notice; or
- (b) vary any of the important dates set out in this Prospectus.

3. Important information

3.1 General

This Prospectus is dated 5 March 2020 and was lodged with ASIC on that date. Neither ASIC nor the ASX (nor their officers) take any responsibility for the content of this Prospectus or the merits of the investment to which this Prospectus relates.

No Bonus Options may be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

No person is authorised to give information or to make any representation in connection with this Prospectus, which is not contained in the Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Prospectus.

As this is a bonus issue of Bonus Options, Eligible Holders are not required to apply for the Bonus Options.

It is important that Eligible Holders read this Prospectus in its entirety and seek professional advice where necessary. The Bonus Options that are the subject of this Prospectus should be considered speculative.

3.2 Transaction Specific Prospectus

This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus. In making representations in this Prospectus regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.

3.3 Foreign Holders and Investors

This Prospectus does not constitute an offer of any Bonus Options in any place in which, or to any person to whom, it would not be lawful to make such an offer. The Company has not made any investigations as to the regulatory requirements that may prevail in countries outside of Australia and New Zealand in which Holders may reside. The distribution of this Prospectus in jurisdictions outside Australia and New Zealand may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe those restrictions. Any failure to comply with any such restrictions might constitute a violation of applicable securities laws.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Holders, the number and value of Bonus Options these Holders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended, and Bonus Options will not be issued, to Holders with a registered address which is outside Australia or New Zealand.

3.4 New Zealand

The Bonus Options are not being issued to the public within New Zealand other than to Holders with a registered address in New Zealand to whom the offer of these securities is being made in reliance on the Financial Markets Conduct Act 2013 and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2016.

This document has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all of the information that a product disclosure statement under New Zealand law is required to contain.

3.5 No Offer in the United Kingdom

No offer of Bonus Options is being made, or will be made, in the United Kingdom.

Neither the information in this Prospectus nor any other document relating to the Offer has been delivered for approval to the Financial Conduct Authority in the United Kingdom and no prospectus (within the meaning of section 85 of the Financial Services and Markets Act 2000 (**FSMA**)) has been published or is intended to be published in respect of the Bonus Options. This document should not be distributed, published or reproduced, in whole or in part, nor may its contents be disclosed by recipients to any person in the UK.

3.6 No Offer in the United States

This document may not be released or distributed in the United States. This document does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States. In particular, the Offer has not been, and will not be, registered under the US Securities Act or the securities law of any state of the United States, and the Bonus Options the subject of the Offer may not be offered or sold in the United States or to or for the account or benefit of any US Persons, except in a transaction exempt from the registration requirements of the US Securities Act and applicable United States state securities laws.

3.7 Risk factors

Eligible Holders should be aware that holding Securities in the Company involves a number of risks. The key risk factors of which Eligible Holders should be aware are set out in Section 6 of this Prospectus with a summary of some of the more important risks set out in Section 4 of this Prospectus. These risks, together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of Bonus Options in the future. Accordingly, an investment in the Company should be considered highly speculative. Eligible Holders should consider consulting their professional advisers in relation to the issue of the Bonus Options pursuant to this Prospectus and any subsequent dealing in, or exercise of, them.

3.8 Exercising Bonus Options into CDIs

No person named in this Prospectus, nor any other person, guarantees the performance of the Company, the repayment of capital or the payment of a return on the Bonus Options or any CDIs that are issued upon the exercise of any Bonus Options. The information in this Prospectus does not constitute a securities recommendation or financial product advice.

In preparing this Prospectus, the Company has not taken into account the investment objectives, financial situation or particular needs of any particular person.

This Prospectus is an important document and you should read it in full before deciding whether to sell any Bonus Options or exercise any Bonus Options into CDIs. You should also have regard to other publicly available information about the Company, including ASX announcements, which can be found at the Company's website: www.dorimus.co.uk.

3.9 Glossary

Certain terms used in this Prospectus are defined in the Glossary in Section 11 of this Prospectus. Money, as expressed in this Prospectus, is in Australian dollars unless otherwise indicated.

3.10 Electronic Prospectus

This Prospectus is available in a paper version and in electronic form. The electronic version will be available on the Company's website www.doriemus.co.uk, from the date of the Prospectus. The Offer constituted by this Prospectus in electronic form is made only to Eligible Holders entitled to receive the Prospectus in electronic form in Australia and New Zealand. Persons who access the electronic form of this Prospectus must ensure they download and read the entire Prospectus.

Any person may obtain a hard copy of this Prospectus free of charge by contacting the Company Secretary, Jessamyn Lyons, between 9:00am and 5:00pm (AWST) Monday to Friday on +61 8 6245 2050 and jess@everestcorp.com.au.

4. Bonus Option Issue Overview

The information set out in this Section is not intended to be comprehensive and should be read in conjunction with the full text of this Prospectus and the continuous disclosure announcements made by the Company to ASX.

Question	Response	Where to find more information
What is the Offer?	<p>This is a pro-rata non-renounceable offer by the Company to issue Bonus Options to Eligible Holders.</p> <p>The Bonus Options have an exercise price of 8 cents (\$0.08) each and an expiry date of 19 March 2024 (being an expiry date that is approximately four years from the date of their proposed issue). The full terms of the Bonus Options are set out in Section 8.1. Subject to satisfaction of the relevant ASX requirements, the Company intends to apply to have the Bonus Options admitted to trade on the Official list of the ASX as a new and separate class of securities</p> <p>Under the Offer, Eligible Holders will be issued two Bonus Options for every three CDIs (or Shares) they hold on the Record Date.</p>	Section 5
Are the Bonus Options free to Eligible Holders?	Yes, the Bonus Options are offered free to Eligible Holders.	Section 5
Who is an Eligible Holder?	All Holders at the Record Date whose registered address is in Australia or New Zealand are Eligible Holders.	Section 5
Are Eligible Holders required to do anything?	<p>No, Eligible Holders are not required to take any action in order to be issued Bonus Options.</p> <p>Holding statements for the Bonus Options will be despatched to Eligible Holders on or soon after the issue of the Bonus Options.</p>	Key dates Section 5
How many Bonus Options will be issued under the Offer?	At the date of this Prospectus, the maximum number of Bonus Options to be issued is 38,655,417 Bonus Options. This assumes that no current option holders exercise their existing options before the Record Date.	Offer Statistics
What are the rights and liabilities attaching to the Bonus Options?	The Bonus Options have an exercise price of 8 cents (\$0.08) each and an expiry date of 19 March 2024 (being an expiry date that is approximately four years from the date of their proposed issue). The Bonus Options will be able to be exercised during the period on and from their date of issue up to and including their expiry date. The full terms of the Bonus Options are set out in Section 8.1.	Section 8
What is the purpose of the Offer?	The purpose of the Bonus Option Issue is to reward Eligible Holders for supporting the Company and to give those Eligible Holders the opportunity to participate in the continued growth of the Company. Although no funds are raised by the issue of the Bonus Options, the possible exercise of the Bonus Options provides the Company with a mechanism to potentially raise funds in the future.	Chairman's Letter Section 5
What is the effect of the Offer?	<p>The effect of the Offer is to:</p> <ul style="list-style-type: none"> • Increase the number of options on issue. • Reduce cash on hand held by the Company by approximately \$60,206, being the estimated costs of the Offer. 	Section 5

-
- Create a new class of listed securities (subject to meeting ASX requirements), being up to 38,655,417 listed options (however that number does not include, and will be increased by, the Attaching Options the subject of the Private Placement and the Priority and Shortfall Offer and the Lead Manager Options, which are all proposed to be listed on the Official List of ASX in the same class of quoted options as the Bonus Options).

Is the issue of the Bonus Options conditional on anything?	Yes, no Bonus Options will be issued to Eligible Holders unless completion occurs in respect of the Proposed Transaction. Further details in relation to the Proposed Transaction are set out in Section 5. Also, if ASX does not approve the quotation of the Bonus Options on the Official List of ASX within three months of the date of this Prospectus, the Bonus Options will not be issued or any that have been issued will be voided (unless ASIC grants an exemption).	Section 5
---	--	-----------

What are the risks associated with an investment in the Company?	<p>The Directors strongly recommend Eligible Holders consider all of the key risk factors described below and the risks set out in Section 6 and also consult with their professional advisers before deciding whether to exercise or deal in the Bonus Options to be issued pursuant to this Prospectus or to take any actions in the expectation that the Bonus Options will be issued to them.</p> <p>Some of the key specific risks include:</p> <ul style="list-style-type: none"> • <u>The Proposed Transaction is still subject to completion</u> – the Company has not yet acquired Coera and its underlying assets as the acquisition is subject to a number of conditions precedent being satisfied (or waived). Accordingly, there is a risk that the Proposed Transaction may not complete and if this was to occur no Bonus Options would be issued to any Eligible Holders. • <u>The exercise price of the Bonus Options may not exceed the market price of the Company's CDIs</u> – as at the date of this Prospectus, the exercise price of each Bonus Options is greater than the market price of the Company's CDIs and accordingly there may not be a readily available market for the sale of the Bonus Options on ASX. • <u>Uncertain nature of the Company's assets</u> – there can be no assurance that the Company's exploration of the existing tenements it has an interest in or any other exploration projects that may be acquired in the future (including the assets the subject of the Proposed Transaction) will result in the discovery and exploitation of any petroleum or natural gas. There is therefore a risk that none of the Company's objectives will be achieved. • <u>Significant dilutionary effect of the proposed issue of securities in connection with the Proposed Transaction</u> - the number of Securities that will be issued pursuant to the Proposed Transaction (including pursuant to the Bonus Option Issues) assuming the Proposed Transaction is completed and the issue of all of the Securities is approved by Shareholders (to the extent required) is estimated to be 259,427,868 CDIs, 120,298,274 options and 18,000,000 Performance Rights. This will equate to approximately 77.6% of all of the CDIs on issue (assuming none of the options or Performance Rights are exercised) and 90.5% of the options on issue (including Performance Rights) following completion of the Proposed Transaction (and the Bonus Option Issue). Accordingly, Eligible Holders will be receiving Bonus Options in respect of a company with a much larger number of securities on issue than is currently the case. • <u>Disposal of UK Assets</u> – as the Company has announced (and as noted in this Prospectus), it is seeking to implement a strategy to dispose or wind up some of its UK operations. It has started the process of rationalising or winding up its UK assets but as at the 	Section 6
---	---	-----------

date of this Prospectus the Company has a 10% legal and beneficial interest in UK onshore petroleum exploration and development licence PL235 and holds a 4% shareholding in Horse Hill Developments Limited (which has a 65% legal and beneficial interest in each of PEDL 137 and PEDL 246 which are located in the UK). There can be no guarantee that the Company will be able to dispose of these assets on favourable terms or at all. Should the Company be unable to dispose of these assets, then any litigation or dispute that may arise in relation to these assets in the future may have a material adverse effect on the Company's assets, liabilities, business, financial condition and results of operations.

- Exploration and development risk – resource exploration and development is by its nature a high risk undertaking. There is no assurance that the Company's exploration and development activities will result in a commercially viable discovery or transaction.
- Future capital needs and additional funding – the Company will need to raise further capital (equity and/or debt) in the future in order to complete its proposed work programmes. No assurance can be given that future funding will be available to the Company on favorable terms or at all, which would prejudice the development of projects and the viability of the Company. Any equity raising would also have a dilutionary impact on the percentage holding of the Company's CDI holders. The Company may also seek a joint venture partner to contribute funds towards the exploration programme in exchange for the transfer of part of its interests in its assets, which would mean the Company would have a reduced interest in those assets.
- Oil and natural gas prices – the Company is seeking to develop projects which will be reliant on the prices of oil and natural gas. Adverse fluctuations in these prices may detrimentally affect the development of the projects.
- Reliance on key personnel - the Company's success largely depends on the core competencies of its Directors, Proposed Directors and any management and their ability to operate in the resource industry. If any of these individuals were to leave the Company this may have a direct impact on the Company's ability to successfully operate its business.

Is the Company proposing to issue any other securities around the time of the issue of the Bonus Options?	<p>Yes, the Company is, subject to Shareholder approval, intending to issue CDIs, options and Performance Rights to various parties in connection with the Proposed Transaction. Details of these proposed issues of securities are set out in Section 5.1. These securities in total consist of:</p> <ul style="list-style-type: none"> • 259,427,868 CDIs • 105,298,274 options (that are proposed to be listed on ASX including the Bonus Options) each with an exercise price of 8 cents (\$0.08) each and an approximate 4 year term) • 15,000,000 unlisted options each with an exercise price of 8 cents (\$0.08) each and an approximate 4 year term) • 18,000,000 Performance Rights 	Section 5
--	---	-----------

5. Details and Effect of the Offer

5.1 Background to the Proposed Transaction

Proposed Transaction Overview

As announced on 30 January 2020, the Company is proposing to acquire 100% of the issued share capital of Coera Limited from Oilex Ltd (**Proposed Transaction**) and the parties are aiming to complete the acquisition on or around 20 March 2020.

Upon completion of the Proposed Transaction, the Company, through its 100% interest in Coera, will own, or hold the rights to own, all of the Northern Fairway PRLs as well as an approximate 79.33% direct interest in PEL 112 and PEL 444, together with an option in Coera's favour to acquire the remaining interest in each of these PELs.

The consideration for the Proposed Transaction will consist of the issue of 28,301,887 CDIs (representing 28,301,887 Shares) (**Vendor CDIs**) in the Company to Oilex (or its nominee(s)) upon completion of the acquisition. The Company will also assume the obligations of Oilex under the agreement it entered into with Senex to acquire the Northern Fairway PRLs, namely the assumption of existing abandonment liabilities (being the Northern Fairway Payment, as defined below), and payment of future PRL annual fees and PRL expenditure targets. The Vendor CDIs will be subject to a two year voluntary escrow period during which time the Vendor CDIs will only be able to be traded by Oilex (or its nominees) in limited circumstances.

The existing abandonment liabilities associated with the Northern Fairway PRLs are approximately \$1.1 million and, to complete the transfer of ownership of the Northern Fairway PRLs from Senex, Coera is required to provide the Government of South Australia with a financial assurance bond for this amount (**Northern Fairway Payment**). Over 50% of the abandonment liabilities relate to well abandonment costs associated with the 2013 Paning-2 gas discovery well which is currently cased and suspended as a potential future gas production well. The relevant PRL fees for 2020 are expected to be approximately \$1 million.

In order to fund the payment of the Northern Fairway Payment and to complete an initial work programme referred to below in relation to the assets to be acquired under the Proposed Transaction and to also create cash reserves, the Company is seeking to raise \$4.5 million from a private placement to sophisticated and professional investors (**Private Placement**) and \$1.5 million under the Priority and Shortfall Offer to be made to certain holders of ordinary shares and CHES Depository Interests in the Company and Oilex and potentially certain other persons.

These fundraising activities are also required under the terms of the Proposed Transaction since one of the conditions precedent that must be satisfied before completion of the Proposed Transaction can occur is that the Company must complete a minimum \$3.5 million capital raising. In relation to this requirement the Company announced on 21 February 2020 that it had successfully completed a \$4.5 million bookbuild (before costs) in respect of the Private Placement.

The Proposed Transaction is also subject to the satisfaction of a number of other conditions precedent including, in particular, the Company obtaining Shareholder approval for the issue of various Securities (including the issue of the CDIs and Attaching Options under the Private Placement and the Priority and Shortfall Offer), completion of due diligence by each party on the other and execution of definitive transaction documentation between the Company and Oilex in respect of the Proposed Transaction.

Upon completion of the Proposed Transaction, as detailed above, the Company (through Coera) will be required to make the Northern Fairway Payment to the Government of South Australia. The funds raised from the Priority and Shortfall Offer (and, if necessary, the funds received from the Private Placement) are intended to be used to satisfy this obligation.

Following completion of the Proposed Transaction, the Company's initial work in respect of the Northern Fairway PRLs will focus on target generation using airborne geophysical surveys, soil sampling, existing 2D and 3D seismic evaluation and prospect mapping with a view to commencing drilling in the second half of 2020.

It is currently expected that, following payment of the Northern Fairway Payment, the Company will be able to utilise remaining proceeds from the Private Placement and the Priority and Shortfall Offer, together with existing cash reserves, to complete an initial work programme that is proposed to consist of the drilling of two to three wells, including up to two wells targeting Jurassic oil and one well focused on northern wet gas (**Initial Work Programme**). The Initial Work Programme is subject to further due diligence, obtaining final quotations and various other confirmations.

Post completion of the Initial Work Programme, the Company intends to commence a process that will be designed to identify a suitable joint venture partner to contribute funding and share the risk of any further work / drilling programmes on the asset portfolio acquired pursuant to the Proposed Transaction.

Further details of the assets proposed to be acquired by the Company pursuant to the Proposed Transaction can be found in the Company's announcement dated 30 January 2020.

Securities to be issued in connection with the Proposed Transaction

In connection with the Proposed Transaction, the Company is proposing to issue up to 340,243,020 Securities of the Company to various parties consisting of the following:

- a maximum of 38,655,417 Bonus Options to be issued pursuant to the Bonus Option Issue the subject of this Prospectus;
- a maximum of 171,428,573 CDIs (to be issued at \$0.035 each, raising up to \$6.5 million) to be issued to new investors and certain Holders pursuant to the Private Placement and Priority and Shortfall Offer (to raise new capital for the Company and to satisfy the minimum \$3.5 million capital raising condition precedent referred to above that is required to be satisfied in connection with the Proposed Transaction);
- a maximum of 57,142,858 options (with an exercise price of 8 cents (\$0.08) each and a four year term) to be issued pursuant to the Private Placement and Priority and Shortfall Offer (on the basis that for every three CDIs issued to a subscriber under the Private Placement and Priority and Shortfall Offer one free Attaching Option will be issued to the subscriber);
- 28,301,887 CDIs to be issued to the Vendor, being the Vendor CDIs;
- 1,714,285 CDIs to be issued to the Lead Manager (being the Lead Manager CDIs) as consideration for services provided in connection with the Proposed Transaction;
- 10,000,000 Lead Manager Options to be issued to the Lead Manager for services provided in connection with the Private Placement and the Priority and Shortfall Offer;

- 15,000,000 Director and Consultant Options to be issued to the current Directors and a consultant for, amongst other things, their contributions to the Company including in connection with the Proposed Transaction; and
- 18,000,000 Performance Rights to be issued to the Proposed Directors to incentivise them as new directors of the Company,

(collectively, the **Proposed Transaction Securities**)

The issue of all of the above Proposed Transaction Securities (other than the Bonus Options), which will have a significant dilutionary impact on the percentage holding of the Company's current CDI holders and materially alter the Company's capital structure, is being put to Shareholders for approval at the General Meeting to be held on 12 March 2020. If the Shareholders do not approve the issue of the CDIs and Attaching Options the subject of the Private Placement and the Priority and Shortfall Offer and the issue of the Vendor CDIs, the Proposed Transaction will not be able to be completed and none of the Proposed Transaction Securities will be issued (including the Bonus Options).

Full details of the Proposed Transaction Securities set out above are contained in the Notice of Meeting available at www.doriemus.co.uk

5.2 The Offer

The Company would like to thank Eligible Holders for the support they have provided during the initial stages of the Company's development. There have been a number of positive steps taken as well as a few setbacks as is to be expected in the oil and gas exploration industry. Given the Proposed Transaction represents the next stage in the Company's development, the Board wishes to issue the Bonus Options to reward Eligible Holders for their patience as the Company continues to develop.

This Prospectus provides for the issue of up to a maximum of 38,655,417 Bonus Options on the basis that two Bonus Options will be issued for every three CDIs (or Shares) held by Eligible Holders.

The Bonus Options will be a new class of option which have a nil issue price, an exercise price of \$0.08 each, an exercise period that commences on the date of issue and ends on 19 March 2024 (which is approximately four years after the date of their proposed issue) and will otherwise be issued on the terms set out in Section 8 of this Prospectus. It is intended that the Bonus Options will be listed on the ASX, subject to all relevant ASX requirements being satisfied. If ASX does not approve the quotation of the Bonus Options on the Official List of ASX within three months of the date of this Prospectus, the Bonus Options will not be issued or any that have been issued will be voided (unless ASIC grants an exemption).

5.3 General Information relating to the Offer

Fractional entitlements to Bonus Options will be rounded down to the nearest whole number. All references to numbers of Bonus Options to be issued pursuant to this Prospectus are expressed subject to rounding.

As at the date of this Prospectus, the Company has unlisted options on issue, which have different terms to the Bonus Options. As noted above, the Bonus Options will form a new class of Securities which, subject to compliance with the ASX requirements, will be listed on the ASX.

All of the Bonus Options the subject of this Prospectus will be issued on the terms and conditions set out in Section 8 of this Prospectus.

All of the CDIs issued on exercise of the Bonus Options will rank equally with the

CDIs on issue at the date of issue. Please refer to Section 8 for further information regarding the rights and liabilities attaching to Bonus Options and the CDIs (and underlying Shares) that will be issued upon the exercise of any Bonus Options.

The Offer is non-renounceable.

The Company confirms that there are no underwriting arrangements.

5.4 No brokerage

No brokerage or stamp duty is payable by Eligible Holders on the issue of Bonus Options under this Offer.

5.5 Entitlement to Bonus Options

The Bonus Options will be issued to Eligible Holders based on the number of CDIs or Shares registered in their name as at 5:00pm (AWST) on the Record Date.

5.6 Eligible Holders

Eligible Holders are Holders with a registered address in Australia or New Zealand as at 5:00pm (AWST) on the Record Date.

Holders with a registered address on the Record Date in Australia or New Zealand who are holding CDIs on behalf of persons who are resident in other countries are responsible for ensuring that the receipt of any Bonus Options under the Offer does not breach any regulations in the relevant overseas jurisdiction.

5.7 No application required

As the Bonus Options are being issued for no monetary consideration, no application needs to be made for Bonus Options under this Prospectus and no action is required to be taken in order for Eligible Holders to receive Bonus Options under this Prospectus.

5.8 Issue of the Bonus Options

The Bonus Options issued under this Prospectus will be issued as soon as practicable after the date of this Prospectus and otherwise in accordance with the ASX Listing Rules. The Company will issue the Bonus Options on the basis of the entitlement of Eligible Holders under the Offer. Holding statements will be mailed to Eligible Holders as soon as practicable after the date of issue of the Bonus Options.

5.9 Official Quotation by ASX

An application for admission of the Bonus Options to quotation on the Official List of ASX will be made to ASX within 7 days after the date of this Prospectus.

The Bonus Options will be issued in accordance with the timetable set out on page 5 however, the Bonus Options may remain unquoted until such time as the Company satisfies the necessary quotation requirements. The Company anticipates that the quotation will occur soon after the issue of the Bonus Options.

If approval is not obtained from ASX for the quotation of the Bonus Options before the expiration of 3 months after the date of issue of the Prospectus (or such other period as amended by ASIC), the Bonus Options, if any have been issued, the issue will be voided, unless ASIC grants an exemption permitting the issue.

The fact that ASX may grant official quotation of the Bonus Options is not to be taken in any way as an indication of the merits of the Company or the Bonus Options.

5.10 ASX Listed Company

The Company is included in the official list of ASX and the ASX Listing Rules apply to securities issued by the Company.

5.11 CHESS

The Company participates in the Clearing House Electronic Subregister System (**CHESS**). CHESS is operated by ASX Settlement Pty Ltd, a wholly owned subsidiary of ASX.

Under CHESS, the Company does not issue certificates to investors. Instead, Holders receive a statement of their holdings in the Company. If an Eligible Holder is broker sponsored ASX Settlement will send a CHESS Statement.

Eligible Holders who are issued Bonus Options under this Prospectus will be provided with a holding statement (similar to a bank account statement) that sets out the number of Bonus Options issued to them. The notice will also advise Eligible Holders of the Holder Identification Number or Security Holder Reference Number and explain, for reference, the sale and purchase procedures under CHESS and issuer sponsorship.

Holding statements for Bonus Options will be mailed in accordance with the timetable set out in this Prospectus and, in any event, as soon as practicable after their issue.

5.12 Taxation Implications

The Company is unable to provide Eligible Holders with advice on the taxation implications (if any) associated with exercising the Bonus Options for CDIs or dealing in the Bonus Options because each Eligible Holder's circumstances are different. Eligible Holders should seek advice from a professional taxation adviser before deciding to exercise or deal in the Bonus Options or any CDIs issued on the exercise of a Bonus Option. To the maximum extent permitted by law, the Company and its directors do not accept any responsibility or liability for any taxation consequences associated with the issue of the Bonus Options or any exercise of, or dealing in, the Bonus Options.

Before deciding to exercise any Bonus Options, Eligible Holders should consider whether the CDIs to be issued on exercise are a suitable investment for them.

5.13 Purpose of the Offer and proposed use of funds

The purpose of the Bonus Option Issue is to reward the Company's Eligible Holders for their support of the Company and to provide the Company with a potential source of additional capital if Bonus Options are exercised.

Although no funds will be raised from the issue of the Bonus Options, if all the Bonus Options are exercised, the Company would receive approximately \$3,092,433. Any funds raised upon the exercise of any Bonus Options will be allocated to the Company's working capital.

5.14 Existing CDIs and Options

The Company currently has on issue 57,983,125 CDIs (assuming all Shares are held

as CDIs).

The Company currently has on issue 14,500,000 unlisted options to subscribe for CDIs. If all existing option holders exercised their options prior to the Record Date, this would result in 14,500,000 new CDIs being issued. In the event that existing option holders exercise their options before the Record Date and they are Eligible Holders, they will be entitled to participate in the Offer. This would increase the maximum number of Bonus Options that may be issued under the Offer by a maximum of 9,666,667.

Under the Bonus Option Issue it is proposed that a maximum of 38,655,417 Bonus Options be issued pursuant to this Prospectus (assuming none of the abovementioned existing options are exercised).

Simultaneous with, and conditional upon, the Proposed Transaction completing, it is proposed that the other Proposed Transaction Securities will be issued by the Company (see Section 5.1)

5.15 Effect of the Offer

The principal and immediate effect of the issue of all of the Bonus Options will be that if they are all issued, the Company will have a new class of listed Securities (subject to meeting the necessary ASX requirements), initially consisting of up to 38,655,417 Bonus Options.

5.16 Effect of the Offer on the Company's Balance Sheet

The Company's Annual Report for the financial year ended 31 December 2018 was released to the ASX on 25 March 2019. The Company's Half Year Report for the six months ended 30 June 2019 was released to the ASX on 23 August 2019. The Annual Report and Half Year Report can be viewed at www.dorimus.co.uk and at www.asx.com.au.

The Company's latest Quarterly Cash Flow Report and Quarterly Activities Report were released to the ASX on 31 January 2020. These reports can be reviewed at www.dorimus.co.uk and at www.asx.com.au.

Additional information, including copies of the ASX releases and investor presentations, is also available on the Company's website.

The Bonus Options to be issued pursuant to this Prospectus will be issued for nil consideration. Accordingly, there will not be any immediate impact on the Company's balance sheet (save for the expenses of the Offer).

Although no funds will be raised from the issue of the Bonus Options, if all the Bonus Options are exercised, the Company would receive approximately \$3,092,433. This will affect the Company's balance sheet, however the Company is not able to specify with any certainty the extent of that change given the uncertainty surrounding whether the Bonus Options will be exercised (which, amongst other things, is dependent on the market price of the Company's CDIs from time to time compared with the exercise price of the Bonus Options until they expire).

5.17 Effect of the Offer on the Company's capital structure

The effect of the Offer on the capital structure of the Company, assuming all Bonus Options offered under the Prospectus are issued, is set out below.

The table below assumes that all Proposed Transaction Securities to be issued in

connection with the Proposed Transaction are issued because no Bonus Options will be issued if the Proposed Transaction does not complete and in order for the Proposed Transaction to complete Shareholders must approve at least the issue of the CDIs and Attaching Options to be issued under the Private Placement and the Priority and Shortfall Offer as well as the issue of the Vendor CDIs.

In the event that all of the Proposed Transaction Securities are issued and no existing options are exercised, the Company's capital structure will be as follows upon issue of the Bonus Options and the other Proposed Transaction Securities.

Securities	Number of CDIs	%*	Number of Options (or Performance Rights where noted)	%**
Existing Securities as at the date of this Prospectus	57,983,125 ¹	22.4%	14,500,000	9.5%
Securities the subject of the Private Placement and Priority and Shortfall Offer	171,428,572 ³	66%	57,142,857 ³	37.2%
Vendor CDIs	28,301,886	11%	Nil	0%
Securities to be issued to the Lead Manager (ie Lead Manager CDIs and Lead Manager Options)	1,714,285	0.6%	10,000,000	6.5%
Securities to be issued to the Directors and Consultants (ie Directors and Consultants Options)	Nil	0%	15,000,000	9.8%
Performance Rights	Nil	0%	18,000,000	11.7%
Maximum number of Bonus Options to be issued under this Prospectus	Nil	0%	38,655,417^{2, 4}	25.3%
INDICATIVE TOTAL	259,427,868^{1, 2, 3}	100%	153,298,274_{2, 3, 4, 5}	100%

Notes:

* represents the relevant CDIs as a percentage of the fully diluted issued share capital of the Company should the Proposed Transaction complete and all the CDIs that are proposed to be issued pursuant to the Proposed Transaction are issued.

** represents the relevant options or Performance Rights as a percentage of the amount of fully diluted options and Performance Rights on issue in the Company should the Proposed Transaction complete and all the options and Performance Rights that are proposed to be issued pursuant to the Proposed Transaction are issued.

¹ Assumes all Shares are held as CDIs

² Assumes that no existing options are exercised after the date of this Prospectus

³ Assumes the Private Placement and Priority and Shortfall Offer are fully subscribed.

⁴ Assumes the maximum number of Bonus Options are issued

⁵ Assumes that no options or Performance Rights that are proposed to be issued are exercised

5.18 Effect on control

The issue of the Bonus Options themselves will have no effect on the control of the Company unless and until they are exercised.

In the event that all of the Bonus Options are exercised into CDIs (and assuming no other options or Performance Rights are exercised) then the resulting number of CDIs the subject of the Bonus Options would (assuming the CDIs the subject of the Private Placement and Priority and Shortfall Offer, the Vendor CDIs and the Lead Manager CDIs are all issued) represent approximately 12.9% of the fully diluted share capital of the Company.

The substantial Holders are listed below in Section 7. If these Holders are eligible to receive Bonus Options and subsequently choose to exercise the Bonus Options issued to them, it may affect their overall percentage shareholding. The final percentage interests held by any substantial Holder of the Company is entirely dependent on the extent to which Holders are eligible to participate in the Bonus Option Issue and subsequently exercise the Bonus Options.

If the Proposed Transaction is completed and assuming that all of the Proposed Transaction Securities are issued (but no options or Performance Rights are exercised), then the CDI holding of Oilex and its nominees' in the Company will represent 10.9% of the issued share capital on a fully diluted basis. If less than the maximum number of CDIs included within the Proposed Transaction Securities are issued then Oilex and its nominees will have a percentage interest that is greater than a 10.9% holding in the Company.

If the Proposed Transaction is completed and assuming that all the Proposed Transaction Securities are issued, then if all of the Bonus Options were exercised (but no other options or Performance Rights are exercised), then the CDI holding of Oilex and its nominees in the Company will represent 9.5% of the issued share capital on a fully diluted basis. If less than the maximum number of CDIs are issued under the Priority and Shortfall Offer then Oilex and its nominees will have a percentage interest that is greater than a 9.5% holding in the Company.

5.19 Withdrawal of the Offer

The Offer may be withdrawn at any time. In this event, the Company will not issue any Bonus Options.

5.20 Issue of Securities Subject to Completion of the Proposed Transaction

Completion of the Bonus Option Issue under this Prospectus is subject to completion of the Proposed Transaction as further detailed in the Company's recent ASX announcements and this Prospectus. Accordingly, the issue of any Bonus Options under this Prospectus is conditional on completion of the Proposed Transaction occurring.

6. Risk factors

6.1 Introduction

The Bonus Options to be issued under this Prospectus, and any CDIs issued upon exercise of the Bonus Options, should be considered as a highly speculative investment. An investment in the Company is not risk free and the Directors strongly recommend Eligible Holders consider the risk factors described below, together with information contained elsewhere in this Prospectus, and consult their professional advisers before deciding whether to exercise or deal in the Bonus Options issued pursuant to this Prospectus.

There can be no guarantee that the Company will deliver on its business strategy, that the Company will generate any revenue or that any forward looking statement contained in this Prospectus will be achieved or realised. Eligible Holders should note that past performance is not a reliable indicator of future performance. If any of the risks referred to in this Prospectus were to occur, the results of operations and financial condition and prospects of the Company could be materially adversely affected. If that were to be the case, the trading price of the Bonus Options and the CDIs and/or the level of dividends or distributions (if any) received from the CDIs could decline significantly. Further, Eligible Holders could lose all or part of their investment.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section 6, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Bonus Options or the underlying Securities, being the CDIs.

The following is a non-exhaustive list of the risks that may have a material effect on the financial position and performance of the Company and the value of its Securities, as well as on the Company's exploration and development activities and ability to fund those activities.

The risks referred to below are not to be taken as exhaustive. Where relevant, the risks below assume completion of the Proposed Transaction has occurred. The specific risks considered below and other risks and uncertainties not currently known to the Company, or that are currently considered immaterial, may materially and adversely affect the Company's business operations, its financial performance and the value and market price of the Bonus Options and the underlying CDIs.

6.2 Company Specific Risks

Proposed Transaction is subject to completion

Completion of the Proposed Transaction is subject to the satisfaction of various conditions precedent including, in particular, the Company obtaining Shareholder approvals for the issue of various Securities (as detailed in Section 5.14 of this Prospectus), the completion of a minimum \$3.5 million capital raising by the Company, completion of due diligence by each party on the other and execution of definitive transaction documentation between the Company and Oilex in respect of the Proposed Transaction. There is no guarantee that all of these conditions will be satisfied and there is a risk that the Proposed Transaction will not complete, and if this is the case no Bonus Options will be issued.

Significant dilutionary effect of the proposed issue of securities in connection with the Proposed Transaction

The number of Securities which will be issued pursuant to the Proposed Transaction

(including pursuant to the Bonus Option Issue) assuming the Proposed Transaction is completed and the issue of all of the Securities is approved by Shareholders (to the extent required) is estimated to be 259,427,868 CDIs, 120,298,274 options and 18,000,000 Performance Rights. This will equate to approximately 77.6% of all of the CDIs on issue (assuming none of the options or Performance Rights are exercised) and 90.5% of the options on issue (including Performance Rights) following completion of the Proposed Transaction (and the Bonus Option Issue). Accordingly, Eligible Holders will be receiving Bonus Options in respect of a company with a much larger number of securities on issue than is currently the case.

Future capital needs, additional funding and joint venture partners

The Company's ability to raise capital (equity or debt) within an acceptable time period, of a sufficient amount and on terms acceptable to the Company will vary according to a number of factors, including the success of its exploration and development programs, any feasibility studies, stock market and industry conditions and the price of oil and gas products and exchange rates. Any equity raising would also have a dilutionary impact on the percentage holding of the Holders.

Post completion of the Initial Work Programme, the Company intends to commence a process that will be designed to identify a suitable joint venture partner to contribute funding and share the risk of any further work / drilling programmes on the asset portfolio to be acquired pursuant to the Proposed Transaction. The joint venture partner will also likely require that they be transferred part of the Company's interests in the relevant assets, in return for sharing the risk, which would mean the Company's interest in those assets would be reduced. There is no guarantee, however, that the Company will be able to find a suitable joint venture partner. Also, no assurance can otherwise be given that future funding will be available to the Company on favorable terms (or at all). If adequate funds are not available on acceptable terms the Company may not be able to further develop its projects and it may impact on the Company's ability to continue as a going concern.

Assets the subject of the Proposed Transaction

The Company's Directors, officers and advisors have significant experience in the oil and gas industry and the acquisition of strategic investments for expansion of businesses and assets. However, all of the Company's assets, including the assets the subject of the Proposed Transaction, are early stage and will require extensive work programmes, analysis of seismic data and then potentially drilling. There can be no assurance that the Company's exploration of its tenements or any other exploration projects that may be acquired in the future will result in the discovery and exploitation of any petroleum or natural gas. There is a risk that none of the Company's objectives will be achieved.

Disposal of the Company's historic UK assets

In the normal course of business of the Company's operations, it may become involved in, named as a party to, or be the subject of, various legal proceedings, including regulatory proceedings, tax proceedings and legal actions, relating to personal injuries, property damage, property taxes, land rights, the environment and contractual disputes.

The outcome of any future litigation cannot be predicted with certainty. The Company is seeking to limit its exposure to litigation risks in relation to the Company's historic UK assets by disposing of these assets and seeking favourable indemnities and waivers from the buyers of those assets. It has started the process of rationalising or winding up its UK assets but as at the date of this Prospectus the Company has a 10% legal and beneficial interest in UK onshore petroleum exploration and development licence PL235 and holds a 4% shareholding in the English company Horse Hill Developments Limited (which has a 65% legal and beneficial interest in each of PEDL 137 and PEDL 246 which are located in the UK).

There can be no guarantee that the Company will be able to dispose of these assets on favourable terms or at all. Should the Company be unable to dispose of these assets any litigation or dispute in relation to these assets in the future may have a material adverse effect on the Company's assets, liabilities, business, financial condition and results of operations.

Moratoria risks

A number of Australian States have introduced moratoria impacting gas exploration and production with a particular focus on fracture simulation. The Company has interests in South Australia where the State government has flagged a moratorium on fracture simulation in the south east of the State. The Company's interests in PEL 112 and 144 lies in the South Australia section of the Cooper-Eromanga Basins, away from the south east of the State. However, if any of these moratorium are extended in time, expanded in scope or made permanent through legislation this could prevent the Company carrying out projects in the areas subject to moratoria or being restricted in the technologies and methods that it can employ. This may adversely impact the Company's operational and financial performance.

No Operating or Performance History of Coera

The Company's Directors, officers and advisors have significant experience in the oil and gas industry and the acquisition of strategic investments for expansion of the business and assets. However, Coera is a new entity with no operating or performance history and no track record, which can be used by an investor to make an assessment of the ability of the Company to achieve the investment objectives of the Company in respect of Coera.

There is a risk that the Company's investment objectives will not be achieved.

Withdrawal of the UK from the European Union

Following the British government's decision to invoke Article 50 on 29 March 2017 (and consequent changes to the exit date) the UK left the European Union (EU) on 31 January 2020 (**Brexit**). At this stage, the nature of the future relationship between the UK and the remaining EU countries following Brexit has yet to be agreed and negotiations with the EU on the terms of Brexit have demonstrated the difficulties that exist in reaching such an agreement. Depending on the terms of the negotiations, the UK could also lose access to the single EU market and to the global trade deals negotiated by the EU on behalf of its members. Such a decline in trade could have a detrimental impact on economic growth in the country. Furthermore, regardless of the form of any withdrawal agreement, there are likely to be changes in the legal rights and obligations of commercial parties across all industries following Brexit, and British regulatory requirements once outside the EU could be subject to significant change.

The UK's current main trade partners are members of the EU single market and the effect of the UK's exit may prove to be a barrier to trade or determine that trade is less favourable for the UK which could lose the automatic benefit of access to the EU single market and EU free trade agreements. Currency rates including Pounds Sterling (which is the Company's functional currency) and the euro were volatile prior to and immediately after the referendum and may remain volatile during the exit negotiations which may increase the Company's investment and portfolio risk. Brexit may also make it more difficult for the Company to acquire or access funds for investment on acceptable terms whilst the exit negotiations may create uncertainty and further risk which could affect the Company's investment strategy (including its exit from its UK investments). A material amount of UK law is based on EU law including significant parts of the financial services legislation. Subject to the exit negotiations, the Company may be required to adopt other measures which could increase its costs and adversely affect its investment strategy.

Political conditions and government regulations

Although political conditions in the UK and Australia are generally stable (see risk factor 'Withdrawal of the UK from the European Union' above), changes may occur in their political, fiscal and legal systems, which might adversely affect the ownership or operation of the Company's interests including, inter alia, changes in exchange rates, exchange control regulations, expropriation of oil and gas rights, changes in government and in legislative, fiscal and regulatory regimes. The Company's strategy has been formulated in the light of the current regulatory environment and likely future changes. Although the Directors believe that the Company's activities are currently carried out in accordance with all applicable rules and regulations, no assurance can be given that new rules, laws and regulations will not be enacted or that existing or future rules and regulations will not be applied in a manner which could serve to limit or curtail exploration, production or development of the Company's business or have an otherwise negative impact on its activities. Amendments to existing rules, laws and regulations governing the Company's operations and activities, or increases in or more stringent enforcement, implementation or interpretation thereof, could have a material adverse impact on the Company's business, results of operations and financial condition and its industry in general in terms of additional compliance costs.

Land access risk

Land access is critical for the Company's exploration and production programs to succeed. In all cases the acquisition of prospective tenements is a competitive business, in which proprietary knowledge or information is critical and the ability to negotiate satisfactory commercial arrangements with other parties is often essential.

Access to land for exploration purposes can be affected by land ownership, including private (freehold) land, pastoral lease and native title land or claims under the Native Title Act 1993 (Cth). In addition, rights to exploration licences carry with them various obligations in regard to minimum expenditure levels and responsibilities in respect of the environment and safety. Failure to observe these requirements could prejudice the right to maintain title to a given area.

Coera does not currently have formal land access agreements in place in connection with all of its assets and accordingly there is a risk that it may not be granted access to some license areas.

6.3 Industry Specific Risks

Exploration

Resource exploration and development is by its nature a high risk undertaking. Exploration is a high risk activity that requires large amounts of expenditure over extended periods of time. The Company's exploration activities will be subject to all the hazards and risks normally encountered in the exploration of hydrocarbons, including climatic conditions, hazards of operating vehicles and plant, risks associated with operating in remote areas and other similar considerations. Conclusions drawn during exploration and development are subject to the uncertainties associated with all sampling techniques and to the risk of incorrect interpretation of geological, geochemical, geophysical, drilling and other data. There can be no assurance that the Company's exploration of its tenements or any other exploration projects that may be acquired in the future will result in the discovery and exploitation of any hydrocarbons, petroleum or natural gas.

Development

The Company's ability to achieve any production, development, operating cost and capital expenditure estimates in a timely manner cannot be assured. Possible future development of oil and gas exploration at any of the Company's projects is subject to a number of risk factors including, but not limited to, unfavorable geological conditions, failing to receive the necessary approvals from all relevant authorities and parties, unseasonal weather patterns, unanticipated technical and operational difficulties

encountered in extraction and production activities, mechanical failure of operating plant and equipment, unexpected shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, risk of access to the required level of funding and contracting risk from any third parties providing essential services.

In the event that the Company commences production, its operations may be disrupted by a variety of risks and hazards which are beyond its control, including environmental hazards, industrial accidents, technical failures, labour disputes, unusual or unexpected rock formations, flooding and extended interruptions due to inclement or hazardous weather conditions and fires, explosions and other accidents. Such occurrences could result in damage to, or destruction of, production facilities, personal injury or death, environmental damage, delays in drilling, increased production costs and other monetary losses and possible legal liability to the owner or operator of a mine. The Company may become subject to liability for pollution or other hazards against which it has not insured or cannot insure, including those in respect of past drilling activities in an area for which it was not responsible.

Oil and natural gas prices volatility

The Company's prospects and the market price of its Bonus Options and CDIs will be influenced by the price obtained from time to time for oil, natural gas and petroleum products.

Oil and gas prices fluctuate and are affected by numerous factors beyond the control of the Company. These factors include worldwide and regional supply and demand for oil and gas, forward selling by producers and production cost levels, general world economic conditions and the outlook for interest rates, inflation and other economic factors on both a regional and global basis. These factors may have a positive or negative effect on the Company's exploration, project development and production plans and activities, together with the ability to fund those plans and activities.

Reliance on key personnel

The Company's success largely depends on the core competencies of its Directors, Proposed Directors and any management and their familiarisation with, and ability to operate in, the resource and development industries. A number of factors, including the departure of Directors, Proposed Directors or senior management of the Company, or a failure to attract or retain suitable qualified key employees could adversely affect the Company's business strategy.

Resource estimations

Resources estimates are expressions of judgment based on knowledge, experience and resource modelling. As such, resource estimates are inherently imprecise and rely to some extent on interpretations made.

Additionally, in Australia, resource estimates may change over time as new information or techniques becomes available. If the Company encounters geological formations different from those predicted by past drilling, sampling and interpretations, resource estimates may need to be altered in a way that could adversely affect the Company's operations.

Title

All of the tenements or licences in which the Company has or may earn an interest will be subject to applications for renewal or grant (as the case may be). The renewal or grant of the terms of each tenement or licence is usually at the discretion of the relevant government authority.

Additionally, tenements are subject to a number of State or Territory specific legislative conditions including payment of rent and meeting minimum annual expenditure commitments. The inability to meet these conditions could affect the standing of a tenement or restrict its ability to be renewed.

If a tenement or licence expires, is not renewed or granted, the Company may suffer

significant damage through loss of the opportunity to develop and discover any hydrocarbon resources on that licence

Native title risks

The Native Title Act 1993 (Cth) recognises and protects the rights and interests in Australia of Aboriginal and Torres Strait Islander people in land and waters, according to their traditional laws and customs. There is a significant uncertainty associated with native title in Australia and this may impact upon the Company's operations and future plans.

It is important to note that the existence of a native title claim is not an indication that native title in fact exists to the land covered by the claim, as this is a matter ultimately determined by the Federal Court. If native title rights do exist, the ability of the Company to gain access to tenements (through obtaining the consent of any relevant landowner) or to progress from the exploration phase to the development and drilling phases of operations may be adversely affected.

The Company must also comply with Aboriginal heritage legislation requirements which require heritage survey work to be undertaken ahead of the commencement of drilling operations.

Community opposition

The Company's ability to undertake exploration on its licenses will depend in part on its ability to maintain good relations with the relevant local communities. Any failure to adequately manage community expectations with respect to compensation for land access, exploration activity, employment opportunities, impact on local business and any other expectations may lead to local dissatisfaction, disruptions in the exploration program and potential losses to the Company.

There is a risk that community disapproval leads to direct action which impedes the Company's ability to carry out its lawful operations which may cause project delay, reputational damage and increased costs and thus impact the financial performance of the Company.

Environmental

It is possible that oil and gas activities may cause harm to the environment due to an unexpected occurrence. If the Company were to be held responsible for such harm, it would suffer reputational damage and it would have an obligation to remediate which may incur material expenditure. An additional outcome might be suspension or cessation of operations and the financial impacts of that. Permits may be revoked and financial penalties applied.

The increased awareness of and implementation of environmental sustainability partly in response to climate change may lead to increased environmental obligations and liability, increasing the costs of operations and the Company's financial performance.

Rehabilitation cost risk

In relation to the Company's historic and future planned exploration programs, issues could arise with respect to abandonment costs, consequential clean-up costs, environmental concerns and other liabilities. In most of these instances, the Company could become subject to liability if, for example, there is environmental pollution or damage from the Company's exploration activities and there are consequential clean-up costs at a later point in time. While the Company has received no firm claims or advices, it remains possible that such claims could arise and could materially adversely affect the financial position and performance of the Company.

Additionally, the Company estimates abandonment and rehabilitation costs based on current understandings. There is no guarantee that actual costs will not be higher than are currently estimated. Regulators may also, over time, impose higher standards for these activities which may increase the associated costs. This may adversely affect the

financial position and performance of the Company.

Potential acquisitions

As part of its business strategy, the Company may make acquisitions or significant investments in which it believes there is scope to improve the underlying value of the Company and to further its strategic goals. There are inherent risks with acquisitions, including that the acquired assets do not fulfil the acquisition criteria. Acquisitions may change the Company's future capital and operating expenditure requirements, and hence funding requirements. Acquisitions can give rise to liabilities. It is possible that operational and financial underperformance of the acquired assets including additional costs and/or liabilities may negatively impact on the financial performance of the Company and potentially impact Holder returns.

Joint venture partners

Financial failure or default by any participant in a joint venture to which the Company is a party may have a material adverse effect on the Company insofar as it may have to bear that share of the joint venture costs which would otherwise have been borne by the relevant participant in the joint venture.

The Company will also be required in future to negotiate agreements with additional third parties. These agreements may include but are not limited to contracts with service providers, product sales agreements, joint venture agreements, agreements with landowners, access to third party facilities and permit terms with regulators. If the outcomes of these negotiations are not favourable to the Company then the Company's financial performance may be adversely impacted.

Licensing, planning permission and other consents

The development of the Company's current and future assets may be dependent on the receipt and maintenance of planning permissions from relevant local authorities as well as other necessary consents such as environmental permits, leases and regulatory consents.

Greenhouse gas emissions

Many participants in the oil and gas sector are subject to current and planned legislation in relation to the emission of carbon dioxide, methane, nitrous oxide and other so called "greenhouse gases". Failure by the operator of any investments of the Company to comply with existing legislation or any future legislation could adversely affect the Company's profitability. Future legislative initiatives designed to reduce the consumption of hydrocarbons could also have an impact on the ability to market the oil and gas produced from the Company's investments and/or the prices which can be obtained from them. These factors could have a material adverse effect on the Company's business, results of operations, financial condition or prospects.

6.4 General Risks

Taxation

The acquisition and disposal of Bonus Options (and the underlying CDIs) will have tax consequences which will differ depending on the individual financial affairs of each Eligible Holder. All Eligible Holders are urged to obtain independent financial advice about the consequences of dealing in or exercising the Bonus Options or selling the CDIs issued on exercise of the Bonus Options from a taxation viewpoint generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisers accept no liability and responsibility with respect to the taxation consequences for Eligible Holders of being issued Bonus Options under this Prospectus.

Litigation

From time to time the Company may be involved in litigation, for example, where a contractual counterparty makes a claim for a loss due to a breach of contract by the

Company. This litigation may include, but is not limited to, contractual claims and employee claims. If a claim is pursued against the Company, the litigation may adversely impact on the profits and financial performance of the Company. Any claim, whether successful or not, may adversely impact the Company's CDI price and/or financial performance.

Liquidity of Bonus Options (and underlying CDIs)

There may be relatively few potential buyers or sellers of the Bonus Options (or underlying CDIs) on the ASX at any time. This may increase the volatility of the price of the Bonus Options (or underlying CDIs). It may also affect the prevailing market price at which Holders are able to sell their Bonus Options (or the underlying CDIs).

As at the date of this Prospectus, the exercise price of each Bonus Option is greater than the market price of the Company's CDIs and accordingly there may not be a readily available market for the sale of the Bonus Options on ASX.

Insurance

Companies within the oil and gas sector are exposed to hazards within their operations which include, but are not limited to, fires, explosions, uncontrolled releases and spills and blowouts. Although insurance is maintained by the Company within ranges of coverage consistent with industry practice no assurance can be given that such insurance will be available in the future on commercially reasonable terms or that any cover will be adequate and available to cover any or all claims. Where the Company does not carry insurance cover, the Company may be exposed to material uninsured losses. Insurance is not always available for all aspects of oil and gas exploration and production. If the Company incurs uninsured or underinsured losses or liabilities, its assets, profits and financial performance may be adversely affected.

Contractual arrangements

The Company is party to a number of material contracts. Failure by any other party to a contract with the Company to comply with their obligations could have a material adverse effect on the Company.

Competition risk

The industry in which the Company is involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operation and financial performance of the Company's projects and business. Increased competition in the energy sector, including from alternative oil and gas producers or from other sources of energy supply, may reduce sales, selling prices and profit margins and may adversely affect the Company's financial performance.

The Company will also face competition within the oil and gas and wider energy sector for the procurement of equipment and skilled labour. Failure to secure appropriate equipment and labour in a timely and cost effective manner may impact the operational and financial impact of the Company.

Foreign Exchange

The Company's accounts are expressed in Pounds Sterling, however, income may be earned and expenditure incurred by the Company in currencies other than Pounds Sterling exposing the Company to fluctuations and volatility of the exchange rate between Pounds Sterling and overseas currencies as determined in international markets. Consequently, a fall in the value of Pounds Sterling against other currencies could increase costs for the Company. All of these factors have a bearing on operating costs, potential revenue and share prices and could materially adversely impact the Company's exploration activities and its financial position and performance.

Stock market fluctuations and economic conditions

The Company will apply for the Bonus Options to be quoted on the ASX. The price of quoted Bonus Options (and underlying CDIs) may rise or fall and there is no certainty in respect of profitability, dividends, return of capital, or the price at which the Bonus Options or CDIs the subject of the Bonus Options may trade on the ASX.

There are risks associated with any investment in securities. The trading prices of securities fluctuate in response to a number of factors beyond the control of the Company and its Directors and officers. Such factors include, but are not limited to:

- The demand for and availability of CDIs;
- Movements in domestic interest rates;
- Exchange rates;
- General and domestic economic activity; and
- Fluctuations in the Australian and international stock markets.

Returns from an investment in the Bonus Options and underlying CDIs may also depend on general stock market conditions as well as the performance of the Company. There can be no guarantee that there will be an active market in the Bonus Options or CDIs and neither the Company nor the Directors warrant the future performance of the Company, or any return of an investment in the Company.

Changes in economic and business conditions or government policies in Australia or internationally may affect the fundamentals which underpin the projected growth of the Company's target markets or its cost structure and profitability. Adverse changes in such things as the level of inflation, interest rates, exchange rates, government policy (including fiscal, monetary and regulatory policies), consumer spending and employment rates, amongst others, are out of the control of the Company and may result in material adverse impacts on the business or its operating results.

Investment risks

As with any stock market investment, there are various risks associated with investing in the Company, specifically because of the nature of the Company's business. Eligible Holders should consider whether the Bonus Options offered under this Prospectus are a suitable investment having regard to their own personal investment objectives and financial circumstances and the risk factors associated with investing in the Company, including, but not limited to, those that have been set out in this Section.

Legislative

Changes in relevant taxes, legal and administration regimes, accounting practice and government policies in Australia may adversely affect the financial performance of the Company.

6.5 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors and others not specifically referred to above may in the future materially affect the financial performance of the Company and the value of the Bonus Options and the Company's CDIs. Eligible Holders should consider that an investment in the Company is speculative and should consult their professional advisers before deciding whether to sell or exercise Bonus Options issued under this Prospectus and to sell any CDIs issued upon exercise of any Bonus Options.

7. Company information

7.1 Company Overview

Information regarding the Company is set out in this Section 7 and elsewhere in this Prospectus. The Directors recommend that you also read the Company's announcements available at www.doriemus.co.uk or www.asx.com.au.

7.2 Continuous disclosure obligations

The Company is a disclosing entity and therefore subject to regular reporting and disclosure obligations under the Corporations Act. Under those obligations, the Company is obliged to comply with all applicable continuous disclosure and reporting requirements in the ASX Listing Rules.

This Prospectus is issued under section 713 of the Corporations Act. This section enables disclosing entities to issue a prospectus in relation to securities in a class of securities which has been quoted by the ASX at all times during the three (3) months before the date of the prospectus (or in respect of options to acquire such securities). Apart from matters prescribed by law, this Prospectus need only contain information relating to the terms and conditions of the Offer, the effect of the Offer on the Company and the rights and liabilities attaching to Bonus Options and CDIs to be issued on exercise of the Bonus Options. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the Company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company that has been notified to the ASX. This Prospectus does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on ASX. Eligible Holders should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to exercise or deal in the Bonus Options issued pursuant to this Prospectus.

Copies of the documents lodged by the Company with ASIC may be obtained from, or inspected at, an office of ASIC.

The Company will provide a copy of any of the following documents, free of charge, to any person who asks for a copy of the document in relation to this Prospectus:

- (a) annual financial report of the Company for the period ending 31 December 2018;
- (b) reviewed half-yearly financial statements for the Company for the period ending 30 June 2019;
- (c) Appendix 4C of the Company for the quarter ending 30 September 2019;
- (d) Appendix 4C of the Company for the quarter ending 31 December 2019; and
- (e) any other financial statements lodged in relation to the Company with ASIC and any continuous disclosure notices given by the Company to the ASX, in the period starting immediately after lodgement of the annual financial report of the Company for the period ended on 31 December 2018 and ending on the date of lodgement of this Prospectus with ASIC.

Details of documents lodged by the Company with ASX since the date of lodgement of the Company's latest annual financial report and before the lodgement of this Prospectus with ASIC are set out in the table below.

7.3 Market price of CDIs

The Company is a disclosing entity for the purposes of the Corporations Act and its CDIs are enhanced disclosure securities quoted on the ASX.

The Company currently has its ordinary shares quoted on ASX as CDIs. Further details on CDIs are set out in Section 8 of this Prospectus.

The highest, lowest and last market sale prices of the CDIs on the ASX during the three months immediately preceding the date of lodgment of this Prospectus with ASIC and the respective dates of those sales were:

	CDI price	Date
Highest	\$0.048	27 February 2020
Lowest	\$0.027	24 December 2019
Last	\$0.042	4 March 2020

7.4 Articles of Association

As the Company is incorporated in England and Wales, its Articles are in a form common to public companies in England and Wales. However, as the Company is listed on the ASX they also contain certain provisions that are required by the ASX Listing Rules. The Articles were adopted by the Company on 28 July 2017.

A copy of the Articles is available at www.doriemus.co.uk.

7.5 Corporate Governance

The Company reports on its compliance with the recommendations made by the Corporate Governance Principles and Recommendations in its annual report. Where the Company's corporate governance practices do not correlate with the practices recommended by the ASX Corporate Governance Council, the Company is working towards compliance with them, however it does not consider that all practices are appropriate for the Company due to the size and scale of the Company's current operations.

7.6 The Directors

The Directors bring to the Board relevant expertise and skills, including industry and business knowledge, financial management and corporate governance experience.

The Board currently comprises Mr Keith Coughlan as non-executive Chairman, Mr Gregory Lee as Technical Director (Executive) and Mr Don Strang as non-executive Director.

Currently, only Mr Keith Coughlan is considered to be an independent director for the purposes of the ASX Corporate Governance Principles and Recommendations (Fourth Edition). Mr Lee is an Executive Director (Technical Director) and Mr Strang was recently an Executive Director (Finance Director).

The biographies of the current Board are as follows:

<p>Mr Keith Coughlan Non-Executive Chairman</p>	<p>Mr Coughlan has been a director of the Company since 19 June 2019 and has almost 30 years' experience in stockbroking and funds management. He has been largely involved in the funding and promotion of resource companies listed on the ASX, AIM and TSX. He has advised various companies on the identification and acquisition of resource projects and was previously employed by one of Australia's then largest funds. Mr Coughlan is currently Managing Director of European Metals Holdings Limited (ASX & AIM: EMH), Non-executive Director of Calidus Resources Limited (ASX: CAI) and Southern Hemisphere Mining Limited (ASX: SUH) and was previously Non-Executive Chairman of Talga Resources Limited (ASX: TLG).</p>
<p>Mr Donald Ian George Layman Strang Non Executive Director</p>	<p>Mr Strang has been a director of the Company since 15 March 2013. Mr. Strang is a member of the Australian Institute of Chartered Accountants and has been in business for over 20 years, holding senior financial and management positions in both publicly listed and private enterprises in Australia, Europe and Africa. Mr. Strang has considerable corporate and international expertise and over the past decade has focused on mining and exploration activities in the oil and gas and natural resources sectors. He is currently a director of several AIM companies.</p>
<p>Mr Gregory Jonathan Lee (Retiring upon Completion of the Proposed Transaction) Technical Director</p>	<p>Mr. Lee has been a director of the Company since 29 September 2017. Mr. Lee is a Petroleum Engineer and has over 30 years of diversified oil and gas experience in both technical and managerial positions. The main focus of his responsibilities has been on acquisitions and divestments, project management and supervision, oil and gas field development and operation, production technology and reservoir enhancement, field operations, drilling and completions activities, exploration, carbon dioxide capture and storage. Mr Lee also has a very keen interest in renewable and sustainable energy and best practices.</p> <p>Mr. Lee is a chartered professional engineer (CPEng) and a member of the Society of Petroleum Engineers (MSPE) and has been an independent petroleum engineer consultant since 1992 having worked with both large and small organisations (both as operators and non-operators) in numerous countries worldwide.</p> <p>Mr. Lee has been involved with the listing and management of public listed companies on both AIM and the ASX since 2003.</p>

Subject to completion of the Proposed Transaction, the new Doriemus Board is proposed to consist of two directors from the current Doriemus Board and two directors nominated by Oilex, reflecting the Company's expanded business model and desire to ensure continuity of both management and the underlying business philosophy.

It is currently proposed that current Non-Executive Chairman, Keith Coughlan, will

continue in his role as Chairman of the Company. Subject to completion of the Proposed Transaction, Brad Lingo will be appointed by the Board as Managing Director of the Company and Jonathan (Joe) Salomon will be appointed by the Board as a director. Mr Strang will also remain on the Board post completion of the Proposed Transaction, in addition to Mr Coughlan, as a Non-Executive Director. The appointment of the Proposed Directors by the Doriemus Board will be sought to be ratified at the Company's 2020 Annual General Meeting.

Proposed Directors

The biographies of the proposed directors are as follows:

<p>Brad Lingo – Managing Director (proposed),</p>	<p>Mr Lingo has a Bachelor of Arts with Honours from Miami University and a Juris Doctorate from Southern Methodist University in Dallas, Texas. Mr Lingo is also a member of the Australian Institute of Company Directors, the Association of International Petroleum Negotiators and the American Association of Petroleum Geologists. Mr Lingo's distinguished career spans over 30 years in a diverse range of oil and gas leadership roles, including business development, new ventures, mergers and acquisitions and corporate finance. Mr. Lingo has been actively involved in oil and gas exploration and development activities in Australia and the Cooper Basin since 1993. Mr Lingo is a recognised oil and gas industry leader, whose broad range of skills and experiences have been recognised in recent awards including winning the SMH/East Coles S&P/ASX 200 Energy Best CEO of the Year 2014. Mr Lingo was Managing Director & CEO of Drillsearch Energy Limited for 6 years until July 2015 building the company from a 200 BOPD oil to a leading ASX 200 Cooper Basin-focused oil and gas company. Prior to taking on the role as Managing Director of Drillsearch, Mr Lingo was also the Head of Oil and Gas for the Commonwealth Bank of Australia from 2005. Mr Lingo started his career in the Cooper Basin as VP and Head of Business Development for Tenneco Energy in 1993 focused on the development of the SW Queensland Gas Project and SW Queensland Gas Pipeline Project and the acquisition of the Moomba-Adelaide Gas Pipeline business from the Government of South Australia. Following the acquisition of Tenneco Energy by El Paso Corporation, Mr Lingo was a co-founder of Epic Energy which became one of Australia's leading developers, owners and operators of natural gas infrastructure servicing the largest part of West Australian domestic gas market and over 50% of the Australian East Coast Gas markets.</p>
<p>Jonathan (Joe) Salomon – Director (proposed),</p>	<p>Mr Salomon has a Bachelor degree in Applied Science and is a graduate member of the Australian Institute of Company Directors, a member of the American Association of Petroleum Geologists and the Petroleum Exploration Society of Australia and has over 32 years' experience working for upstream energy companies. Mr Salomon has worked for a number of oil & gas companies in various senior positions including General Manager Exploration and New Ventures at Murphy Oil Corporation and Global Head of Geoscience at RISC PL, in addition to a number of executive director roles including Strategic Energy Resources, Norwest Energy and Nido Petroleum. At several times in his career, Mr Salomon has acted</p>

	as an independent consultant for various oil & gas companies, including New Standard Energy and Pacrim Energy.
--	--

7.7 Related party transactions

From time to time the Company may be party to transactions with related parties including:

- (a) employment and service arrangements; and
- (b) payment of directors fees.

The Company believes that it has made appropriate disclosure of past related party transactions and, other than any further disclosure specifically set out below or made elsewhere in this Prospectus, it does not intend to make any additional disclosure of such transactions, which will have either proceeded on an "arm's length" basis, reasonable remuneration basis or been approved by Shareholders in general meetings.

The Company discloses the following transactions with related parties which have either proceeded on an "arm's length" or reasonable remuneration basis:

- (a) Consultancy Agreement with Kadaje Investments Pty Ltd ACN 623 432 119 (as trustee for the Kadaje Trust), an entity controlled by Mr Coughlan, which provides general operational and business strategy services to the Company. The fee is \$4,000 exclusive of GST, payable on a monthly basis for 5 days worked per month.
- (b) Consultancy Agreement with NW Consulting Limited, an English company controlled by Mr Strang, which provides certain financial and accounting consultancy services as may be required by the Company including, but not limited to, drafting budgets to ensure efficient financial planning. The fee is £2,250 per month exclusive of VAT, payable on a monthly basis for 5 days worked per month.
- (c) Consultancy Agreement with Mr Greg Lee (as trustee for the Petrotech Consulting Trust) pursuant to which Mr Lee acts as an executive director of the Company and provides technical oil and gas project consultancy services as required by the Company to comply with its obligations under the oil and gas exploration licences that the Company may have an interest in from time to time. Petrotech also provides such other assistance as the Company reasonably requires. The fee is \$4,000 exclusive of GST, payable on a monthly basis for 5 days worked per month.

7.8 Details of substantial holders

At the date of this Prospectus, the Company is of the view that there is no single entity that controls the Company.

The persons holding a relevant interest in more than 5% of the Company's CDIs as at 14 February 2020 (assuming all shares held as CDIs) are as follows:

	Name	CDIs or Shares Held	Percentage of issued share capital as at 14 February 2020	Maximum Number of Bonus Options the Holder is entitled to receive	Relevant interest in share capital if the Proposed Transaction Securities are issued and all Bonus Options subscribed for are exercised*
1	CITICORP NOMINEES PTY LIMITED	7,075,646	12.20	4,717,097	4.4%
2	HSBC CUSTODY NOMINEES (AUSTRALIA) LIMITED	6,123,580	10.56	4,082,386	3.9%
3	J P MORGAN NOMINEES AUSTRALIA PTY LIMITED	3,075,610	5.30	2,050,406	2.0%

* represents the percentage of the issued share capital held by the relevant Holder on a fully diluted basis assuming the Proposed Transaction has completed (and all of the Proposed Transaction Securities have been issued but none of the options on issue at the date of this Prospectus and none of the options (other than the relevant substantial holders' Bonus Options) or Performance Rights that form part of the Proposed Transaction Securities have been exercised) and the relevant substantial holder does not subscribe for any CDIs under the Private Placement or the Priority and Shortfall Offer and is not issued any Bonus Options.

7.9 20 Largest Shareholders

The 20 largest CDI holders of the Company as at 14 February 2020 (assuming all shares held as CDIs) are as follows:

	Name	CDIs or Shares held	% of issued share capital
1	CITICORP NOMINEES PTY LIMITED	7,075,646	12.20
2	HSBC CUSTODY NOMINEES (AUSTRALIA) LIMITED	6,123,580	10.56

7.10 Interests of Directors

The nature and extent of the interest (if any) that any of the Directors of the Company holds, or held at any time during the last two years, in:

- (a) the formation or promotion of the Company;
- (b) property acquired or to be acquired by the Company in connection with:
 - (1) its formation or promotion;
 - (2) the Offer; or
- (c) the Offer,

is set out below or elsewhere in this Prospectus.

Other than as set out below or elsewhere in this Prospectus, no one has paid or agreed to pay any amount, and no one has given or agreed to give any benefit, to any Director or proposed director of the Company:

- (a) to induce them to become, or to qualify as, a director of the Company; or
- (b) for services provided by a director in connection with:

- (1) the formation or promotion of the Company; or
- (2) the Offer.

7.11 Security holdings

Relevant Interests of Directors

The Relevant Interest of each of the Directors in the Securities of the Company as at the date of this Prospectus is as follows:

Director	CDIs ¹	Options	Entitlement to Bonus Options
Keith Coughlan	Nil	Nil	Nil
Don Strang	990,500 CDIs ²	3,000,000 Options	660,333 Bonus Options
Greg Lee	86,462 CDIs	1,500,000 Options	57,641 Bonus Options

Note the following in relation to the above table:

- ¹ Assumes all Shares are held as CDIs
- ² CDIs are registered in the name of HSBC Global Custody, as custodian.

Director Participation in the Bonus Option Issue

Subject to completion of the Proposed Transaction, Don Strang and Greg Lee, or their nominees (as applicable), will be eligible to be issued Bonus Options by way of being Eligible Holders with a registered address in Australia or New Zealand on the Record Date.

- Under the Bonus Option Issue, Don Strang or his nominee will be issued two Bonus Options for every three CDIs or Shares he (or his nominee) holds. Don Strang (or his nominee) currently holds 990,500 CDIs in the Company so, should the Bonus Option Issue proceed, he or his nominee will be issued approximately 660,333 Bonus Options.
- Under the Bonus Option Issue, Greg Lee or his nominee will be issued two Bonus Options for every three CDIs or Shares he holds. Greg Lee currently holds 86,462 CDIs in the Company so, should the Bonus Option Issue proceed, he will be issued approximately 57,641 Bonus Options.

As the Bonus Option Issue is pro-rata for the purposes of the ASX Listing Rules, the Company does not require any specific ASX Listing Rule approvals to issue the Bonus Options to Mr Strang, Mr Lee or other related parties.

Proposed issue of options to Directors

The Company is also seeking Shareholder approval at the General Meeting to issue unlisted options to the Directors (or their nominees), subject to completion of the Proposed Transaction occurring, as follows:

- (a) Keith Coughlan -4,500,000 Director and Consultant Options to be issued 4,500,000 CDIs;

- (b) Don Strang -3,500,000 Director and Consultant Options to be issued 3,500,000 CDIs; and
- (c) Greg Lee -3,500,000 Director and Consultant Options to be issued 3,500,000 CDIs,

on the terms detailed in the Notice of General Meeting.

Director and Proposed Director Participation in the Priority and Shortfall Offer

The Company is seeking approval for certain related parties of the Company, being Director Don Strang and proposed director Jonathan (Joe) Salomon, or their nominees, to be issued CDIs and Attaching Options under the Priority and Shortfall Offer that is occurring concurrently with the Bonus Option Issue as both of them are eligible participants.

Mr Strang is a Director and Mr Salomon is a proposed director of the Company and therefore each fall within ASX Listing Rule 10.11.1, which prohibits the Company from issuing equity securities to either of them (due to them being related parties of the Company) without Shareholder approval.

Resolution 3 of the Notice of General Meeting is seeking Shareholder approval for the issue and allotment of a maximum of 2,857,144 CDIs (representing 2,857,144 Shares) and 952,382 Attaching Options to be issued 952,382 CDIs (representing 952,382 Shares) in aggregate to Mr Strang and Mr Salomon for the purposes of ASX Listing Rule 10.11 and for all other purposes.

If this Resolution 3 is approved and subject to Mr Strang and Mr Salomon proceeding to apply for CDIs and Attaching Options under the Priority and Shortfall Offer, the maximum number of CDIs and Attaching Options that will be issued to Mr Strang and Mr Salomon under the Priority and Shortfall Offer, subject to any scale back in accordance with the terms of the Priority and Shortfall Offer, are as follows:

- (a) Don Strang or his nominee - 1,904,763 equity securities (comprised of a maximum of 1,428,572 CDIs (representing 1,428,572 Shares) and a maximum of 476,191 Attaching Options to be issued 476,191 CDIs (representing 476,191 Shares); and
- (b) Jonathan (Joe) Salomon or his nominee - 1,904,763 equity securities (comprised of a maximum of 1,428,572 CDIs (representing 1,428,572 Shares) and a maximum of 476,191 Attaching Options to be issued 476,191 CDIs (representing 476,191 Shares).

No other related parties will be permitted to participate in the Priority and Shortfall Offer unless separate Shareholder approval is obtained for the issue of any securities to such related parties in accordance with the ASX Listing Rules.

Proposed issue of Performance Rights to, and relevant interests of, Proposed Directors

As part of the arrangements associated with appointing Brad Lingo and Jonathan (Joe) Salomon to the Board upon completion of the Proposed Transaction, it is proposed that they each be issued 9,000,000 Performance Rights in the Company on the terms set out in the Notice of Meeting. The issue of these Performance Rights is subject to Shareholder approval at the General Meeting and, if approved, will be

issued under and in accordance with the Company Director and Employee Incentive Plan.

As noted above, Mr Salomon will also be eligible to apply for CDIs and Attaching Options under the Priority and Shortfall Offer.

As at the date of this Prospectus, neither of the Proposed Directors has a Relevant Interest in any Securities of the Company.

7.12 Remuneration of Directors and Proposed Directors

The total maximum remuneration of non-executive directors of the Company is set by ordinary resolution of Shareholders in general meeting in accordance with the Articles, the Companies Act and the ASX Listing Rules, as applicable. The determination of non-executive directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions made by each non-executive director to the Company. The current amount has been set at an amount not to exceed GBP200,000 per annum. Currently Don Strang and Keith Coughlan are appointed as non-executive directors. Greg Lee is an executive director.

A director may be paid fees or other amounts (e.g. non-cash performance incentives such as options, subject to any necessary Shareholder approval) as the other directors determine where a director performs special duties or otherwise performs services outside the scope of the ordinary duties of a director. In addition, directors are also entitled to be paid reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as directors.

Current Directors remuneration

The following table shows the total annual remuneration for the previous two financial years and the current financial year to date paid to those persons who are Directors as at the date of this Prospectus.

Director*	Financial Year ending 31 December 2018	Financial Year ending 31 December 2019	To date in this Financial Year
Keith Coughlan ¹	Nil	GBP 16,000	GBP5,000
Don Strang ²	GBP 119,000	GBP 73,000	GBP5,000
Greg Lee ³	GBP 114,000	GBP 85,000	GBP5,000

Notes:

- * The above disclosure relates only to current Directors and does not include directors who resigned during the periods shown.
- 1 Includes fees paid to entities controlled by Mr Coughlan for services provided to the Company.
- 2 Includes fees paid to entities controlled by Mr Strang for services provided to the Company.
- 3 Includes fees paid to entities controlled by Mr Lee for services provided to the Company.

Proposed Directors remuneration

The following table sets out the proposed remuneration arrangements for each of

the Proposed Directors upon their appointment to the Board following completion of the Proposed Transaction occurring:

Proposed Director	Financial Year ending 31 December 2019	Proposed Annual Remuneration upon Appointment to the Board
Brad Lingo	Nil	\$255,000 plus superannuation and bonus of up to a maximum \$100,000
Jonathan (Joe) Salomon	Nil	\$53,000 plus potentially consulting fees that are not expected to exceed a daily rate of \$1,500 – \$1,800 with the total number of days to be agreed

As noted above, it is also proposed that, subject to Shareholder approval being obtained at the General Meeting, each Proposed Director will be issued 9,000,000 Performance Rights.

8. Rights and liabilities attaching to the securities

8.1 Bonus Option terms and conditions

- (a) The Bonus Options are being issued to Eligible Holders on the basis of two Bonus Options for every three fully paid CDIs (or Shares) held by them in the Company on the Record Date;
- (b) Each Bonus Option gives the holder the right to subscribe for one CDI. To obtain the right given by each Bonus Option, the Bonus Option holder must exercise the Bonus Option in accordance with the terms and conditions of the Bonus Option;
- (c) The Bonus Options have a nil issue price (**Issue Price**);
- (d) The exercise price of each Bonus Option is \$0.08 (**Exercise Price**);
- (e) The Bonus Options will expire on 19 March 2024, being approximately four years from the proposed issue date (**Expiry Date**) unless exercised earlier;
- (f) The Bonus Options are transferrable in whole or in part, subject to applicable requirements of the Articles, the Corporations Act, the Companies Act and the ASX Listing Rules;
- (g) All CDIs issued upon exercise of a Bonus Option will rank equally in all respects with the Company's existing CDIs;
- (h) The Bonus Options may be exercised at any time wholly or in part by delivering a duly completed form of notice of exercise (**Exercise Notice**), together with payment for the Exercise Price per Bonus Option exercised, to the Company at any time on or after the date of issue of the Bonus Options and on or before the Expiry Date. Payment may be made as directed by the Company from time to time, which may include by cheque, electronic funds transfer or other methods;
- (i) Any person may obtain a hard copy of a blank Exercise Notice by contacting the Company Secretary;
- (j) The number of Bonus Options that may be exercised at any one time must be not less than 10,000 Bonus Options unless the holder holds less than 10,000 Bonus Options in which case all Bonus Options must be exercised at one time;
- (k) An Exercise Notice is only effective when the Company has received the full amount of the total Exercise Price for the Bonus Options the subject of the Exercise Notice in cleared funds;
- (l) Upon the valid exercise of a Bonus Option and payment of the Exercise Price, the Company will issue a fully paid CDI ranking pari passu with the CDIs then on issue, within 10 business days of valid exercise and payment;
- (m) The Bonus Options do not confer a right to participate in new issues of securities of the Company unless the Bonus Option holder has first exercised the Bonus Option before the record date for the determination of entitlements

to the new issue of securities.

- (n) Bonus Option holders are not entitled to participate in any dividends unless the Bonus Options are exercised and the resultant CDIs of the Company are issued prior to the record date for determining entitlements to the dividend;
- (o) In the event of any reorganisation (including consolidation, subdivision, reduction or return) of the issued capital of the Company:
 - (1) the number of Bonus Options, the Exercise Price of the Bonus Options, or both will be reorganised (as appropriate) in a manner consistent with the ASX Listing Rules as applicable at the time of reorganization, but with the intention that such reorganisation will not result in any benefits being conferred on the holders of the Bonus Options which are not conferred on Holders; and
 - (2) subject to the provisions with respect to rounding of entitlements as sanctioned by a meeting of Shareholders approving a reorganisation of capital, in all other respects the terms for the exercise of the Bonus Options will remain unchanged;
- (p) If there is a pro rata issue (except a bonus issue), the Exercise Price of a Bonus Option may be reduced according to the following formula (see ASX Listing Rule 6.22.2):

$$O_n = O - (E [P - (S + D)] / [N + 1])$$

Where:

- O_n = the new exercise price of the Bonus Option;
 - O = the old exercise price of the Bonus Option;
 - E = the number of underlying securities into which one Bonus Option is exercisable;
 - P = the volume weighted average market price per Security of the underlying securities during the 5 Trading Days ending on the day before the ex right date or the ex entitlements date;
 - S = the subscription price for a security under the pro rata issue;
 - D = dividend due but not yet paid on the existing underlying securities (except those to be issued under the pro rata issue); and
 - N = the number of securities with rights or entitlements that must be held to receive a right to one new Security.
- (n) If there is a bonus issue to the Holders of CDIs in the Company, the number of CDIs over which the Bonus Option is exercisable may be increased by the number of CDIs which the Bonus Option holder would have received if the Bonus Option had been exercised before the record date for the bonus issue;
 - (o) Except as noted above or as permitted by the ASX Listing Rules, the terms of the Bonus Options shall only be changed if holders (whose votes are not

to be disregarded) of ordinary shares in the Company approve of such a change;

- (p) The Company shall apply for listing of the Bonus Options on the ASX; and
- (q) The Company shall apply for listing on the ASX of the resultant CDIs of the Company issued upon exercise of any Bonus Option.

8.2 Rights attaching to Company's Shares and CDIs

The Company is incorporated under the legal jurisdiction of England and Wales and its issued capital consists of ordinary shares. However, the Company's Shares cannot be cleared and settled on ASX through CHESS. As a result, depositary interests called CDIs are issued to allow the Company's Shares to be cleared and settled electronically through CHESS. Set out below in this Section 8 is a summary of the rights attaching to Shares and CDIs.

The following is a summary of the more significant rights and liabilities attaching to Shares. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Memorandum of Association

In accordance with section 31 of the English Companies Act and the Articles, the objects of the Company are unrestricted.

General

The rights attaching to ownership of Shares are detailed in the Articles of the Company and, in certain circumstances, regulated by the Corporations Act, the English Companies Act, ASX Listing Rules, the ASX Settlement Operating Rules and the general law.

The following is a broad summary of the more significant rights, privileges and restrictions attaching to the Company's Shares. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders in the Company. To obtain such a statement, persons should seek independent legal advice.

Articles

The Articles (which were adopted at a general meeting of the Company held on 28 July 2017) contain (amongst others) provisions to the following effect:

(A) Voting

Subject to the English Companies Act and to any rights or restrictions attached to any Shares, on a show of hands every Shareholder (who is an individual) who is present at any general meeting in person or every Shareholder (who is a corporation) that is represented at any general meeting by a duly authorised representative and every proxy (regardless of the number of Shareholders for whom he is proxy) has one vote and on a poll each Shareholder has one vote for every Share he holds.

(B) Distributions on a Winding Up

If the Company is wound up, a liquidator may, with the approval of a special resolution and any other sanction required by applicable law, divide among the members the whole or any part of the assets of the Company for distribution in kind. For that purpose, the liquidator may value any assets and determine how the division will be carried out on the basis of that valuation and, in accordance with the then existing rights of Shareholders, how such division will be earned out as between the Shareholders or different classes of Shareholders.

(C) Appointment of Directors

The Company may, by ordinary resolution, appoint a person who is willing to act to be a director, either to fill a vacancy or as an addition to the Board, but the total number of directors may not exceed a maximum number fixed in accordance with the Articles (unless and until otherwise determined by the Company by ordinary resolution the number of directors is not subject to a maximum but must not be fewer than two).

(D) Retirement of Directors

At every annual general meeting any director who has been appointed by the directors of the Company since the last annual general meeting; and any director who held office at the time of the two preceding annual general meetings and who did not retire at either of them must retire. If the Company does not fill the vacancy at the meeting then the director will be deemed to be reappointed unless it is resolved to reduce the number of directors pursuant to the Articles.

(E) Removal and Resignation of Directors

Any director automatically stops being a director if:

- he gives the Company notice of resignation;
- all of the other directors pass a resolution requiring the director to resign;
- he is suffering from mental or physical ill health rendering him incapable of acting as a director for a period of more than six months;
- he has missed directors' meetings for a continuous period of six months without permission from the directors and the directors pass a resolution removing the director from office;
- a bankruptcy order is made against him or a composition is made with his creditors generally; or
- he is prohibited from being a director under applicable law (including the English Companies Act).

The Articles also provide that the Company may remove a director by ordinary resolution before the expiration of his period of office and may by ordinary resolution appoint another director who is willing to act in his place. Special notice must be given in accordance with section 312 of the English Companies Act of such resolution to remove a director or appoint a replacement. Currently the English Companies Act provides that the notice period for the special notice is 21 days.

(F) Amendment of Articles of Association

In accordance with section 21 of the English Companies Act a company may only amend its articles of association by special resolution at a general meeting.

(G) Size of Board and Board Vacancies

Unless and until otherwise determined by the Company by ordinary resolution the number of directors is not subject to a maximum but must not be fewer than two. At the date of this Prospectus no such resolution has been passed by the Company. The Board may appoint a person who is willing to act to be a director, either to fill a vacancy or as an addition to the Board. A director so appointed will hold office only until the dissolution of the annual general meeting following next after his appointment, unless he is reappointed at that annual general meeting.

(H) Annual General Meeting

An annual general meeting of the Company must be held in each year (in addition to any other meetings which may be held in that year) and such meeting must be specified as the annual general meeting. The Board will determine the place and time of the annual general meeting, subject to the provisions of the English Companies Act.

(I) General Meetings

The Board may convene a general meeting. The Board must also convene a general meeting on receipt of a requisition by shareholders (representing at least 5% of the paid up share capital of the Company) or, in default, a general meeting may be convened by such requisitionists, as provided by the Articles.

(J) Length and Form of Notice

An annual general meeting and all other general meetings of the Company must be called by at least such minimum period of notice as is prescribed under the English Companies Act. The current minimum period prescribed by the English Companies Act is 21 days. Notice will be given to such shareholders as are, under the Articles, or the terms of issue of shares, entitled to receive such notices from the Company and to the directors and the auditors of the Company.

(K) Ordinary Resolutions

In accordance with the English Companies Act and under the Articles an ordinary resolution is a resolution of members of a company passed by a simple majority of shareholders who, being entitled to vote, do so in person or by proxy.

(L) Special Resolution

In accordance with the English Companies Act and under the Articles a special resolution is a resolution of members of a company passed by a majority of at least 75% of shareholders who, being entitled to vote, do so in person or by proxy.

8.3 ASX Listing Rules

As the Company is listed on ASX, the Articles provide that, notwithstanding anything in the Articles, if the ASX Listing Rules prohibit an act being done, the act must not be done. Also nothing in the Articles prevents an act being done that the ASX Listing Rules require to be done. If the ASX Listing Rules require an act to be done or not to be done, authority is given for that act to be done or not to be done (as the case may be).

If the ASX Listing Rules require the Articles to contain a provision or not to contain a

provision the Articles are deemed to contain that provision or not to contain that provision (as the case may be). If a provision of the Articles is or becomes inconsistent with the ASX Listing Rules, the Articles are deemed not to contain that provision to the extent of the inconsistency

8.4 Takeover Regulation

Chapters 6, 6A, 6B and 6C of the Corporations Act dealing with the acquisition of shares (including acquisitions and takeovers) do not apply to the Company given that it is incorporated in England and Wales. Instead the Company is subject to the application of the City Code as further detailed below.

Mandatory bid

The Company is subject to the application of the City Code. Under Rule 9 of the City Code, any person who acquires an interest in shares which, taken together with shares in which he or persons acting in concert with him are interested, carry 30% or more of the voting rights in the Company will normally be required to make a general offer to all the remaining shareholders to acquire their shares. Similarly, when any person or persons acting in concert is interested in shares which in aggregate carry 30% of the voting rights of the Company but which do not carry more than 50% of the voting rights in the Company, a general offer will normally be required to be made if he or any person acting in concert with him acquires an interest in any other shares in the Company. An offer under Rule 9 must be in cash, normally at the highest price paid within the preceding 12 months for any interest in shares of the same class acquired in the Company by the person required to make the offer or any person acting in concert with him

Squeeze-out

Under the English Companies Act, if an offeror were to make an offer to acquire all of the shares in the Company not already owned by it and were to acquire not less than 90% of the shares to which such offer related it could then compulsorily acquire the remaining 10%. The offeror would do so by sending a notice to outstanding members telling them that it will compulsorily acquire their shares and then, six weeks later, it would deliver a transfer of the outstanding shares in its favour to the Company which would execute the transfers on behalf of the relevant members, and pay the consideration to the Company which would hold the consideration on trust for outstanding members. The consideration offered to the members whose shares are compulsorily acquired under this procedure must, in general, be the same as the consideration that was available under the original offer unless a member can show that the offer value is unfair.

Sell-out

The English Companies Act also gives minority shareholders a right to be bought out in certain circumstances by an offeror who has made a takeover offer. If a takeover offer relates to all the shares in the Company and, at any time before the end of the period within which the offer could be accepted, the offeror held or had agreed to acquire not less than 90% of the shares, any holder of shares to which the offer related who had not accepted the offer could by a written communication to the offeror require it to acquire those shares. The offeror would be required to give any member notice of his/her right to be bought out within one month of that right arising. The offeror may impose a time limit on the rights of minority members to be bought out, but that period cannot end less than three months after the end of the acceptance period or, if later, three months from the date on which notice is served on members notifying them of their sell-out rights. If a member exercises his/her rights, the offerors are entitled and bound to acquire those shares on the terms of the offer or on such other terms as may be agreed.

8.5 Background to CDIs

(a) What are CDIs?

As noted above, the Company is incorporated under the legal jurisdiction of England and Wales. To enable companies such as the Company to have their securities cleared and settled electronically through CHESSE, Depository Instruments called 'CDIs' are issued.

Each CDI of the Company represents one underlying Share. The main difference between holding CDIs and Shares is that CDI holders hold the beneficial ownership in the Shares instead of legal title. CHESSE Depository Nominees Pty Limited (**CDN**), a subsidiary of ASX, will hold the legal title to the underlying Shares.

Pursuant to the ASX Settlement Operating Rules, CDI holders receive all of the economic benefits of actual ownership of the underlying Shares. CDIs are traded in a manner similar to shares of Australian companies listed on ASX.

CDIs will be held in uncertificated form and settled/transferred through CHESSE. No share certificates are issued to CDI holders. Shareholders cannot trade their Shares on ASX without first converting their Shares into CDIs.

The Shares underlying the CDIs will be registered in the name of CDN and will be held on behalf of and for the benefit of the CDI holder. CDN will receive no fees for acting as the depository for the CDIs. CDIs will be CHESSE-approved from the date of their Official Quotation in accordance with the ASX Listing Rules and the ASX Settlement Operating Rules. The Shares underlying the CDIs will rank equally with the Shares that the Company has previously issued.

Eligible Holders should note that there are certain differences between Shares in the Company and ordinary shares which are typically issued by Australian incorporated public companies.

(b) How do CDI holders convert from a CDI holding to a direct holding of Shares on the UK principal register or vice versa?

Convert CDIs into Shares

CDI holders who wish to convert their CDIs to Shares to be held on the UK register can do so by instructing the Company's Share Registry either:

(a) directly in the case of CDIs on the issuer sponsored sub-register operated by the Company. CDI holders will be provided with a form entitled "CDI Cancellation: Australia to United Kingdom Share Register" for completion and return to the Company's Share Registry; or

(b) through their sponsoring participant (usually their broker) in the case of CDIs which are sponsored on the CHESSE sub-register. In this case, the sponsoring broker will arrange for completion of the relevant form and its return to the Company's Share Registry.

The Company's Share Registry will then arrange for the Shares to be transferred from CDN into the name of that holder and a new share certificate will be issued. This will cause the Shares to be registered in the name of the holder on the Company's share register and trading on ASX will no longer be possible.

The Company's Share Registry will not charge an individual security holder or the Company a fee for transferring CDI holdings into Shares (although a fee will be payable by market participants).

Convert Shares into CDIs

If holders of Shares wish to convert their holdings to CDIs, they can do so by contacting the Company's Share Registry. The Company's Share Registry will not charge a fee to a holder of Shares seeking to convert their Shares to CDIs (although a fee will be payable by market participants).

Timing

In either case, it is expected that this process will be completed within 24 hours,

provided that the Share Registry is in receipt of a duly completed and valid removal request form. However, no guarantee can be given about the time required for this conversion to take place

(c) **How is local and international trading in CDIs effected?**

When an Eligible Holder exercises a Bonus Options and receives CDIs, they will be transferring the beneficial interest in the Shares rather than the legal title if they wish to trade their CDIs. The transfer will be settled electronically by delivery of the relevant CDI holdings through CHESSE. In other respects, trading in CDIs is essentially the same as trading in other CHESSE approved securities, such as shares in an Australian company.

(d) **What corporate action entitlement (such as rights issues and bonus issues) do CDI holders have?**

CDI holders receive all direct economic benefits and other entitlements in relation to the underlying Shares. These include the entitlement to participate in rights issues, bonus issues and capital reductions. These rights exist only under the ASX Settlement Operating Rules, rather than under the English Companies Act.

For further information in relation to CDIs and the matters referred to above, please refer to the ASX website and the documents entitled

- (a) "Understanding CHESSE Depository Interests" at:
http://www.asx.com.au/documents/settlement/CHESSE_Depository_Interests.pdf
- (b) ASX Guidance Note 5 at:

8.6 Rights attaching to CDIs

The following is a summary of the more significant rights and liabilities attaching to CDIs which will be issued to the holders of Bonus Options upon their exercise. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of CDI holders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Company's Articles, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) **Voting Rights**

If holders of CDIs wish to attend the Company's general meetings, they will be able to do so. Under the ASX Listing Rules and the ASX Settlement Operating Rules, the Company as an issuer of CDIs must allow CDI holders to attend any meeting of the holders of Shares unless relevant English law at the time of the meeting prevents CDI holders from attending those meetings. A person who holds a Share which is not fully paid is entitled, on a poll, to a fraction of a vote equal to the proportion which the amount paid bears to the total issue price of the Share.

In order to vote at such meetings, CDI holders have the following options:

- (1) instructing CDN, as the legal owner, to vote the Shares underlying their CDIs in a particular manner. A voting instruction form will be sent to CDI holders with the notice of meeting or proxy statement for the meeting and this must be completed and returned to the Company's Share Registry prior to the meeting; or
- (2) informing the Company that they wish to nominate themselves or another person to be appointed as CDN's proxy with respect to their Shares underlying the CDIs for the purposes of attending and voting

- at the general meeting; or
- (3) converting their CDIs into a holding of Shares and voting these at the meeting (however, if thereafter the former CDI holder wishes to sell their investment on ASX it would be necessary to convert the Shares back to CDIs). In order to vote in person, the conversion must be completed prior to the record date for the meeting. See above for further information regarding the conversion process.

As holders of CDIs will not appear on the Company's share register as the legal holders of the Shares, they will not be entitled to vote at Shareholder meetings unless one of the above steps is undertaken.

As each CDI represents one Share, a CDI holder will be entitled to one vote for every CDI they hold.

Proxy forms, CDI voting instruction forms and details of these alternatives will be included in each notice of meeting sent to CDI holders by the Company.

These voting rights exist only under the ASX Settlement Operating Rules, rather than under the English Companies Act. Since CDN is the legal holder of the applicable Shares and the holders of CDIs are not themselves the legal holder of their applicable Shares, the holders of CDIs do not have any directly enforceable rights under the Articles.

(b) Dividends

Despite legal title to the Shares being vested in CDN, the ASX Settlement Operating Rules provide that CDI holders are to receive all direct economic benefits and other entitlements in relation to the underlying Shares. These include dividends and other entitlements which attach to the underlying Shares. These rights exist only under the ASX Settlement Operating Rules (which have the force of law by virtue of the Corporations Act), rather than under the English Companies Act.

Whilst the Company does not anticipate declaring any dividends in the foreseeable future, should it do so in the longer term, the Company will declare any dividends in Pounds Sterling as that is its main functional currency. In that event, the Company will pay any dividends in Pounds Sterling or Australian dollars depending on the country of residence of the CDI holder. If a CDI holder in Australia wishes to receive dividends in Pounds Sterling they must complete an appropriate election form and return it to the Company's Share Registry, no later than the close of business on the dividend record date.

(c) Winding-up

In the event of the Company's liquidation, dissolution or winding up, a CDI holder will be entitled to the same economic benefit on their CDIs as holders of Shares. These rights exist only under the ASX Settlement Operating Rules, rather than under the English Companies Act.

(d) Rights that CDI holders have in the event of a takeover

If a takeover bid or similar transaction is made in relation to the Shares of which CDN is the registered holder, under the ASX Settlement Operating Rules, CDN must not accept the offer made under the takeover bid except to the extent that acceptance is authorised by the relevant CDI holder. CDN must ensure that the offeror processes the takeover acceptance of a CDI holder if such CDI holder instructs CDN to do so.

These rights exist only under the ASX Settlement Operating Rules, rather than under the English Companies Act.

(e) Notices and announcements that CDI holders receive

CDI holders will receive all notices and company announcements (such as annual

reports) that Shareholders are entitled to receive from the Company. These rights exist only under the ASX Settlement Operating Rules, rather than under the English Companies Act.

9 Additional information

9.1 Interests of experts and advisers

This Section applies to persons named in this Prospectus as performing a function in a professional, advisory or other capacity in connection with the preparation or distribution of this Prospectus, promoters of the Company and any financial services licensee named in the Prospectus as involved in the Offer (collectively **Prescribed Persons**).

Other than as set out below or elsewhere in this Prospectus, no Prescribed Person has, or has had in the last two years, any interest in:

- (a) the formation or promotion of the Company;
- (b) any property acquired or proposed to be acquired in connection with the formation or promotion of the Company or the Offer; or
- (c) the Offer under this Prospectus.

Other than that as set out below or elsewhere in this Prospectus, no one has paid or agreed to pay any amount, and no one has given or agreed to give any benefit to any Prescribed Person for services provided by a Prescribed Person in connection with:

- (a) the formation or promotion of the Company; or
- (b) the Offer under this Prospectus.

9.2 Consents

Chapter 6D of the Corporations Act imposes a liability regime on the Company (as the offeror of the Bonus Options), the Directors, the persons named in the Prospectus with their consent as proposed directors, any underwriters, persons named in the Prospectus with their consent as having made a statement in the Prospectus and persons involved in a contravention in relation to the Prospectus, with regard to misleading and deceptive statements made in the Prospectus. Although the Company bears primary responsibility for the Prospectus, the other parties involved in the preparation of the Prospectus can also be responsible for certain statements made in it.

Each of the parties referred to in this Section:

- (a) does not make, or purport to make, any statement in this Prospectus other than those referred to in this Section; and
- (b) to the maximum extent permitted by law, expressly disclaim and take no responsibility for any part of this Prospectus other than a reference to its name and a statement included in this Prospectus with the consent of that party as specified in this Section.

The Proposed Directors have given their written consent to be named as proposed directors in the Prospectus to the extent that they have consented to be a director of the Company with effect from completion of the Proposed Transaction, together with details of their proposed remuneration.

KPMG Law is named in the Corporate Directory as Australian solicitors to the Offers and have performed work in relation to the Prospectus. In doing so, they have placed reasonable reliance upon information provided to them by the Company and other third parties. They do not make any statement in this Prospectus. KPMG Law has given its consent to be named as Australian solicitors to the Offer in the form and context in which it is named and has not withdrawn that consent prior to the lodgement of this Prospectus with ASIC. KPMG Law will be paid for work performed in accordance with usual time based charge out rates and estimate their professional costs in respect of the Offer to be approximately \$20,000 (excluding disbursements and GST) as at the date of this Prospectus. KPMG Law will also be paid for additional work conducted in respect of the Proposed Transaction. KPMG Law is the Company's Australian solicitors and are engaged from time to time by the Company on a variety of matters. Over the last two years approximately \$145,000 has been paid to KPMG Law in connection with providing Australian law legal services to the Company.

Hill Dickinson is named in the Corporate Directory as English solicitors to the Offers and have performed work in relation to the Prospectus. In doing so, they have placed reasonable reliance upon information provided to them by the Company and other third parties. They do not make any statement in this Prospectus. Hill Dickinson has given its consent to be named as English solicitors to the Offers in the form and context in which it is named and has not withdrawn that consent prior to the lodgement of this Prospectus with ASIC. Hill Dickinson will be paid for work performed in accordance with usual time based charge out rates and estimate their professional costs in respect of the Offer to be approximately \$10,000 (excluding disbursements and VAT) as at the date of this Prospectus. Hill Dickinson will also be paid for additional work conducted in respect of the Proposed Transaction. Hill Dickinson is the Company's English law solicitors and are engaged from time to time by the Company on a variety of matters. Over the last two years approximately \$270,000 has been paid to Hill Dickinson in connection with providing English law legal services to the Company.

Computershare has given its written consent to be named as the Share Registrar in the form and context in which it is named and has not withdrawn its consent prior to lodgement of this Prospectus with ASIC. Computershare has not authorised or caused the issue of this Prospectus and does not make or purport to make any statement in this Prospectus.

9.3 Information excluded from continuous disclosure notices

Other than as set out below, there is no information which has been excluded from a continuous disclosure notice in accordance with the Listing Rules other than as is set out in this Prospectus.

The Company advises that it has been in discussions with third parties unrelated to the Company regarding a potential divestment or winding up post completion of the Proposed Transaction of some of the Company's non-core assets in the United Kingdom, however discussions are ongoing and incomplete in all cases.

9.4 Determination by ASIC

ASIC has not made a determination which would prevent the Company from relying on section 713 of the Corporations Act in issuing the Bonus Options under this Prospectus.

9.5 Litigation

As at the date of this Prospectus, the Company is not involved in any legal proceedings and the Directors are not aware of any legal proceedings pending or threatened against the Company which would have a material effect on the Company.

9.6 Subsequent events

There has not arisen, at the date of this Prospectus, any item, transaction or event of a material or unusual nature not already disclosed in this Prospectus which is likely, in the opinion of the Directors, to affect substantially:

- (a) the operations of the Company;
- (b) the results of those operations; or
- (c) the state of affairs of the Company.

9.7 Privacy

Collection, maintenance and disclosure of certain personal information is governed by legislation including the Privacy Act 1988 (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules.

As an Eligible Holder you have consented to the collection, use and disclosure of your personal information as set out in the Company's privacy policy available at the Doriemus Website (**Privacy Policy**) and as set out below.

The Company collects personal information about you as set out in the Privacy Policy and for the purposes set out in the Privacy Policy. As an existing Holder you have agreed to the Privacy Policy and have agreed that the purposes include the Company administering its dealings with you, providing you with Company information, servicing your needs as a CDI holder (if you become one), carrying out appropriate administration of your issue of Bonus Options and dealing with any requests that you may have. If the Company does not collect your personal information, it may be unable to deal with your requests or provide you with information.

The Company may disclose your personal information to third parties as set out in the Privacy Policy and as set out below. In certain circumstances we may be able to disclose personal information to the following third parties: the Share Registry, the Lead Manager, the Company's auditors, management, legal and other professional advisors, service providers, suppliers, insurers, IT providers who run the Company's IT services, payment processors who process payments, marketing providers who provide marketing and public relations services, and those third parties to whom the Company is required to disclose personal information by law.

You can have access to and seek correction of your personal and sensitive information. The Privacy Policy contains information about how you can do this. The Privacy Policy also contains information about how you can make a complaint about a breach of privacy.

9.8 Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words

such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and Eligible Holders are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

These forward looking statements are subject to various risk factors that could cause the Company's actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in Section 6 of this Prospectus.

9.9 Expenses of the Bonus Issue

The total expense of the Bonus Option Issue are estimated to be approximately \$60,206 (excluding GST) as follows:

Expense	(\$)
ASIC Fees	3,206
ASX Fees	12,000
Legal Fees (Aus and UK)	30,000
Miscellaneous, registry, printing and other expenses	15,000
Total	60,206

10 Directors' Authorisation

This Prospectus is issued by Doriemus plc and its issue has been authorised by a resolution of the Directors.

In accordance with section 720 of the Corporations Act, each Director and each Proposed Director has consented to the lodgement of the Prospectus with ASIC.

Signed on the date of this Prospectus on behalf of Doriemus plc by:

Keith Coughlan - Non-Executive Chairman
