## Quarterly Activity Report to 30 September 2021

**Doriemus Plc (ASX: DOR)** ("**Doriemus**" or the "**Company**"), is pleased to provide the Quarterly Activities Report for the period representing the 3 months to 30 September 2021 (the "**Period**") and material events post the end of the Period.

### OPERATIONAL ACTIVITIES FOR THE QUARTER TO 30 SEPTEMBER 2021

#### UK AND EUROPE OIL PRODUCTION AND EXPLORATION:

##### **1) Horse Hill ("HH") Petroleum Exploration and Development License:**

Doriemus currently owns 4% of Horse Hill Developments Limited ("**HHDL**"), which owns 65% of two Petroleum Exploration and Development Licences ("**PEDL**") PEDL137 and PEDL246 in the northern Weald Basin between Gatwick Airport and London. The PEDL137 licence covers 99.29 km<sup>2</sup> to the north of Gatwick Airport in Surrey and contains the Horse Hill-1 ("**HH-1**") discovery well. PEDL246 covers an area of 43.58 km<sup>2</sup> and lies immediately adjacent and to the east of PEDL137 which hosts the HH-1 oil discovery well located in PEDL137 in the UK's onshore Weald Basin. This equates to a 2.6% attributable interest in the licences. HHDL is the nominated operator ("**Operator**") of the Horse Hill License.

##### **Horse Hill-Field**

Operations in Horse Hill are ongoing. The operator's main current priority and focus is its Turkey operations.

##### **2) Isle of Wight PEDL331 (Arreton Oil Discovery):**

Doriemus has a 5% participating interest in a 200km<sup>2</sup> onshore Isle of Wight Petroleum Exploration and Development License ("**PEDL 331**"). The Isle of Wight PEDL331 Arreton license contains a discovery well, Arreton, plus several geologically similar prospects, Arreton South and North prospects.

On the 25<sup>th</sup> of October, the company announced that the Isle of Wight Council's Planning Committee had recently made a decision to refuse consent for the appraisal and testing of the Arreton oil and gas discovery.

This decision goes against the previous recommendation by the council's planning officers to approve the project. The UKOG will now consider its position and whether to lodge an appeal with the Planning Inspectorate.

The operator took considerable care and undertook significant research to minimise the potential impacts of the A-3 site, choosing a location 300m distance from the A3056 and adjacent to land with existing non-agricultural commercial uses, namely the Wight

Farm Anaerobic Digestion Energy Power Station and the Blackwater Quarry for aggregates. No objections to the development were raised by statutory consultees on environmental, drinking water, landscape or health and safety grounds.

### 3) **Greenland Gas & Oil Plc:**

The Company has a small shareholding in the English registered company Greenland Gas and Oil Plc (“GGO”), which is an early-stage oil and gas exploration company focused on acquiring oil and gas exploration assets in Greenland. There were no material updates over the quarter.

In accordance with Listing Rule 5.4.1, the Company reports that there were no substantive oil and gas exploration activities during the quarter.
